*The Panasonic GX9 Menu System Simplified* David Thorpe, 2018-06-02 The Panasonic GX9 is a direct descendant of the much loved and still much used GX7 It has all the improvement you would expect better stabilization quieter shock free shutter and higher pixel count As important as all the technological progress is it wouldn't mean a thing if the camera had lost the charm and sheer usability of the GX7 With its trim and compact rangefinder style body the GX9 remains Panasonic's little Leica Like all Micro Four Thirds cameras the GX9 is a highly complex digital imaging machine at heart and for anyone new to the system or upgrading from a smart phone it can seem quite off putting It needn't be If you want a simple life just put the G9 in iA and it is no more difficult to use than your phone On the other hand you don't buy a quality camera just to do selfies for Facebook and snapshots for Instagram The GX9 is capable of just about any type of work from 30 frames per second speed burst for the sports photographer to quiet and instant focusing for street work There's a lot to know about the Panasonic GX9 LVF Display Speed ESHTR Some settings are crucial some just good to know This book doesn't try to teach you photography Its aim is to familiarise you with the menu and settings of the GX9 what they do and why you might want to use them It is true that the camera is a tool but just knowing your scales on a violin makes you a better musician so mastery of the GX9 menu will make you a better photographer The menu system and controls of the GX9 are well presented and logically laid out but with 6 main containing around 200 menu items many of those with sub menus even the most experienced user will sometimes find themselves scratching their head and wondering what an entry means This small book goes through every menu choice and control and explains a what it does and b why you might want to do it It may not inspire you in a literary sense but with its help you may find a GX9 tailored to your personal taste inspiring to use

*The Panasonic G9 Menu System Simplified* David Thorpe, 2018-03-24 The G9 is Panasonic's first top of the line camera specifically designed for stills rather than being a stills video hybrid With 60fps burst shooting class leading stabilization a user configurable menu system 80Mp High Resolution mode and many other high end features it is of necessity a complex camera As with any digital camera the heart of the machine is the menu system consisting of around 180 entries many with their own sub menus offering many hundred of options It is no surprise then that even experienced users can find themselves scratching their heads as they wade through the mass of options This book goes through each and every every menu choice and explains what it does and why you might want to do it It doesn't try to teach you photography You wouldn't have chosen a G9 if you didn't already have some expertise

What my books aims to do is to familiarise yourself with the G9 and learn to tailor it to your own taste and needs Having done that you I think you will find using the G9 not only a pleasure but inspiring as well
