N. Raadschelders, 2015-03-04 Most public administration texts overly compartmentalize the subject and don't interconnect the various specializations within government which leaves a serious gap in preparing students for public service Government A Public Administration Perspective is designed to fill that void It provides a comprehensive multidisciplinary view of government that includes perspectives from political science political theory international relations organizational sociology economics and history The text draws on classic and modern literature from all these areas to analyze government at four different levels ideational societal organizational and individual layers It links public administration's various subfields human resource management budgeting policy making organizational theory etc into a holistic framework for the study of government It also includes an extensive bibliography drawing from American and European literature in support of the book's global historical and comparative approach Routledge Handbook of Public Policy in Africa Gedion Onyango, 2021-12-30 This Handbook provides an authoritative and foundational disciplinary overview of African Public Policy and a comprehensive examination of the practicalities of policy analysis policymaking processes implementation and administration in Africa today The book assembles a multidisciplinary team of distinguished and upcoming Africanist scholars practitioners researchers and policy experts working inside and outside Africa to analyse the historical and emerging policy issues in 21st century Africa While mostly attentive to comparative public policy in Africa this book attempts to address some of the following pertinent questions How can public policy be understood and taught in Africa How does policymaking occur in unstable political contexts or in states under pressure Has the democratisation of governing systems improved policy processes in Africa How have recent transformations such as technological proliferation in Africa impacted public policy processes What are the

underlying challenges and potential policy paths for Africa going forward The contributions examine an interplay of prevailing institutional political structural challenges and opportunities for policy effectiveness to discern striking commonalities and trajectories across different African states This is a valuable resource for practitioners politicians researchers university students and academics interested in studying and understanding how African countries are governed

Institutions, Discourse, and Regional Development Henrik Halkier,2006 Why are some regional development strategies adopted and others rejected Only limited systematic attention has been paid to the politics of regional policy including the role of institutions discourse and political debate in shaping this major area of public policy The book develops an institutionalist approach to the study of regional policy capable of spanning major European development paradigms and accounting for the dynamic relationship between organisations policies and political discourse This conceptual framework is then applied to the Scottish Development Agency a development body famed across Europe for its innovative policies but surrounded by political controversy in Scotland A detailed study of corporate strategies policy implementation and the wider British environment questions existing interpretations of the organisation which tend to vilify anti interventionist Thatcherites or glorify shrewd development professionals Instead the author proposes an alternative synthesis which highlights the interplay between institutions discourse and regional development in the politics of regional policy

Parliaments in Asia Zheng Yongnian,Lye Liang Fook,Wilhelm Hofmeister,2013-10-23 Much writing on politics in Asia revolves around the themes of democracy and democratisation with a particular focus on political systems and political parties This book on the other hand examines the role that parliaments a key institution of democracy play in East Southeast and South Asia including Taiwan and Hong Kong Parliaments in these locations function in a variety of historical political and socio economic circumstances with different implications for institution building and political development This book examines questions like how accessible representative transparent accountable and effective are parliaments To what extent are parliaments able to hold other political actors to account or how far are they constrained by

the political environment in which they operate Going further this book considers how new media such as the Internet and other social platforms through providing avenues for individuals to articulate their views separate from official channels are influencing the ways parliaments work To stay relevant parliamentarians need to reach out and engage these individuals in formulating deciding and fine tuning policies In the information age being a parliamentarian has become more challenging and how a parliamentarian copes with this change will shape the nature and pace of political development

 Busch, 1999 Approaches focusing on ideological and cognitive factors to analyse public policy have moved to centre stage in
 political science This book presents the great variety of theoretical and empirical research on the role of ideas which has
 emerged in recent years How can you quantify ideas Ideas are objective entities not conducive to empirical research The
 appeal of this book lies in the juxtaposition of a careful exploration and discussion of the theories behind the role of ideas in
 policy making and policy areas and their detailed contextualisation Through carefully researched contemporary examples
 offering single country studies comparative studies and examples from the European Union these ideas show themselves to
 be a double edged sword Ideas are revealed as both a societal and political resource crucial to both promoting and inhibiting
 policy change A clear understanding of the impact and influences of ideas on the crucial process of policy is essential to all
