Pattern Classification Duda Hart Stork:

Pattern Classification Richard O. Duda, Peter E. Hart, David G. Stork, 2012-11-09 The first edition published in 1973 has become a classic reference in the field. Now with the second edition, readers will find information on key new topics such as neural networks and statistical pattern recognition, the theory of machine learning, and the theory of invariances. Also included are worked examples, comparisons between different methods, extensive graphics, expanded exercises, and computer project topics. An Instructor's Manual presenting detailed solutions to all the problems in the book is available from the Wiley editorial department.

Digital Image Processing and Analysis Scott E. Umbaugh, 2017-11-30 Digital image processing and analysis is a field that continues to experience rapid growth with applications in many facets of our lives. Areas such as medicine, agriculture, manufacturing, transportation, communication systems, and space exploration are just a few of the application areas. This book takes an engineering approach to image processing and analysis, including more examples and images throughout the text than the previous edition. It provides more material for illustrating the concepts, along with new PowerPoint slides. The application development has been expanded and updated, and the related chapter provides step-by-step tutorial examples for this type of development. The new edition also includes supplementary exercises, as well as MATLAB-based exercises to aid both the reader and student in development of their skills.

Computational Statistics Handbook with MATLAB Wendy L. Martinez, Angel R. Martinez, 2007-12-20 As with the bestselling first edition, *Computational Statistics Handbook with MATLAB* Second Edition covers some of the most commonly used contemporary techniques in computational statistics. With a strong practical focus on implementing the methods, the authors include algorithmic descriptions of the procedures, as well as

Computer Manual in MATLAB to accompany Pattern Classification David G. Stork, Elad Yom-Tov, 2004-04-08 *Computer Manual to Accompany Pattern Classification* and its associated MATLAB software is an excellent companion to Duda *Pattern Classification* 2nd ed. The code contains all algorithms described in Duda, as well as supporting algorithms for data generation and visualization. The Manual uses the same terminology as the DH S text and contains step-by-step worked examples, including many of the examples and figures in the textbook. The Manual is accompanied by software that is available electronically. The software contains all algorithms in DH S, indexed to the textbook, and uses symbols and notation as close as possible to the textbook. The code is self-annotating, so the user can easily navigate, understand, and modify the code.
