Humanize Thomas Heatherwick, 2023-11-07 From one of the world's most innovative designers comes a fiercely passionate manifesto on why so many places have become miserable and boring and how we can make them better for everyone featuring hundreds of photographs and illustrations that will change how you see the world around you We are living through a global catastrophe Buildings affect how we feel moment by moment day by day They have the power to lift us up and make us feel awestruck playful safe and inspired just as they can make us feel alienated and sad But many of the places where we live work learn and heal have become monotonous and disposable We're surrounded by cheap boring buildings that make people stressed sick and unhappy In short much of our world has been crafted in a way that is hostile to human experience Now drawing on his experience of the last thirty years in making bold beautiful objects and buildings Thomas Heatherwick offers both an informed critique of the inhumanity in most of today's contemporary building design and a rousing call for action Looking through Heatherwick's eyes we see familiar landmarks and cityscapes around the world from London Paris Barcelona Singapore New York Vancouver and beyond both old and new famous and obscure to learn how places can either sap the life out of us or nourish our senses and our psyche The time has come he says to put emotion back at the heart of the design

process and the reasons to do so could not be more urgent Design is not superficial it has an impact upon economics climate change our mental and physical wellbeing even the peace and cohesion of our societies As citizens and users we need a world full of architectural diversity that delights and unites us And as makers and designers we can help create a world where cities reconnect with their essential mission to provide human spaces where people mix meet inspire each other and live out their full potential Elegantly crafted by Heatherwick's own studio and fully illustrated with hundreds of black and white photos Humanize is an urgent call to arms for making our world a better place for everyone to live and provides the vision and tools for us to make it a reality *Making* Thomas Heatherwick, Masie Rowe, 2012 Published to coincide with a major exhibition at the V A here is the first comprehensive monograph on one of the world's most innovative designers of three dimensional objects Still just two decades into his career British designer Thomas Heatherwick has been heralded as one of the most original creative talents for many years He has produced everything from sculptural chairs forged from the world's largest aluminium extruder to a bridge that rolls open and closed and an exuberant seed bank hairy with fibre optic lights This book is the first to present an exhaustive survey of his studio's output to date over 140 projects Long in development it has been prepared in close collaboration with Heatherwick himself offering a highly personal in depth and behind the scenes look at all aspects of Heatherwick's creative design and manufacturing processes The Architects' Journal, 2004-04
