Celebrity, Social Media Influencers and Brand Performance Salomeh Tabari, Qing Shan Ding, 2024-08-27. Celebrity endorsement has shown to be an effective way of enhancing brand-related attitudes, reinforcing behavioural intentions and shaping brand perceptions. Indeed, companies devote a lot of resources on celebrity endorsement to exploit emotional bonds between consumers and brands in order to accomplish their desired brand image and increase brand awareness, differentiation and brand loyalty. In short, brands that are endorsed by a favourite celebrity and influencer become more credible and trustworthy. This edited book examines this new era of marketing by focusing on the impact of employing celebrities, SMIs and virtual influencers to endorse the brand as a key advertising tactic. In particular, it focuses on the rise of social media usage and the corresponding changes in advertising strategies in the digital era. As well as exploring this rise of celebrity influencers and their value, the book also takes a critical lens, examining their roles in fuelling the growth of materialism, causing mental health issues among adolescents and aiding the development of fast fashion. With this balanced and comprehensive approach, this book is an essential resource for anyone interested in the future of advertising.

It all comes down to whether an adolescent giant Automaton, a truly mad Mad Scientist, a surly Necromancer, a Banshee's granddaughter and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other or at least quit fighting over the tele-privilege schedule long enough to get the job done. Not likely.
