Quechua Expressions of Stance and Deixis Marilyn Manley,Antje Muntendam,2015-03-10 Quechua Expressions of Stance and Deixis explores the semantics and pragmatics of Southern Quechua and Ecuadorian Quichua expressions considered as markers of stance and deixis This volume is the first to study a broad range of stance deictic phenomena in Peruvian and Bolivian Quechua and Ecuadorian Quichua in depth with examples that have been elicited as well as captured from natural discourse Each chapter investigates these expressions through fieldwork and experimental studies many employing original methodologies As such this work stands as an important contribution to the study of an endangered language

*Making Sense of Learning* Norman Reid,Asma Amanat Ali,2020-08-25 This textbook brings together findings from global research on teaching and learning with an emphasis on secondary and higher education The book is unique in that the content is selected in an original way and its presentation reflects the most recent research evidence related to understanding The book covers and presents themes that are based tightly on worldwide research evidence scrupulously avoiding opinion or any dependence on the personal experience of the authors The book starts by reflecting on educational research itself The four chapters that follow relate the story of the research that shows how all humans learn and the variations within that framework These chapters offer a tight framework that underpins much of the rest of the text The next four chapters look at the way school curricula are organised and how the performance of learners can be assessed They summarise the research evidence related to thinking skills and consider the importance of practical teaching This is followed by two chapters that draw from the extensive social psychology research on attitude development as it applies in education and then by two chapters that summarise the research related to major issues of controversy the performativity agenda and the issue of quality One chapter looks at the place of statistics in education The next two chapters look at the evidence that can support or undermine many typical education beliefs or myths and mirages Finally the last chapter brings it all together and looks into the future pointing to some areas where future research is likely to be helpful based on current knowledge
