Imagology, 2007-01-01

How do national stereotypes emerge? To which extent are they determined by historical or ideological circumstances or else by cultural literary or discursive conventions? This first inclusive critical compendium on national characterizations and national cultural or ethnic stereotypes contains 120 articles by 73 contributors. Its three parts offer: 1 a number of in depth survey articles on ethnic and national images in European literatures and cultures over many centuries; 2 an encyclopedic survey of the stereotypes and characterizations traditionally ascribed to various ethnicities and nationalities; and 3 a conspectus of relevant concepts in various cultural fields and scholarly disciplines. The volume as a whole as well as each of the articles has extensive bibliographies for further critical reading. Imagology is intended both for students and for senior scholars facilitating not only a first acquaintance with the historical development, typology and poetics of national stereotypes but also a deepening of our understanding and analytical perspective by interdisciplinary and comparative contextualization and extensive cross referencing.

Values Across Cultures and Times Biljana Mišić Ilić, Vesna Lopičić, 2014-03-17

Values Across Cultures and Times is a collection of sixteen articles examining the concept of values understood in its broadest sense as the need of the modern man to examine, redefine and reconstruct previous theories, histories, moralities, social relationships, forms of language and language use. In times of great change preserving traditional values seems to be particularly difficult and the authors of these essays respond to the challenge and approach the notion of changing values from the perspectives of literary studies and linguistics. The book opens with an introductory overview followed by sixteen articles divided into three sections. The book is aimed at a broad academic audience while the popular style of the articles also makes the volume appealing to a wider audience interested in different aspects of values. The authors of the articles come from Serbia, Macedonia, Bulgaria, Romania and the United States.
