Preparing Every Teacher to Reach English Learners Joyce W. Nutta, Kouider Mokhtari, Carine Strebel, 2020-07-29 2013 Outstanding Book Award American Association of Colleges for Teacher Education (AACTE). *Preparing Every Teacher to Reach English Learners* presents a practical, flexible model for infusing English learner (EL) instruction into teacher education courses. The editors outline the key steps involved in this approach: winning faculty support, assessing needs, and developing capacity, and share strategies for avoiding pitfalls. The central chapters feature sample courses illustrating how EL content can be incorporated into standard courses: human development, learning disabilities, and social foundations, and across subject areas and topics: math, science, social science, physical education, and classroom management. Most preservice teacher candidates report that they feel unprepared to work with English learners. This practical, flexible model for infusing EL content into teacher education will provide an invaluable resource in shaping the next generation of teachers.

The Poetics of Childhood Roni Natov, 2014-06-03. *The Poetics of Childhood* investigates the sensibility of childhood and the ways writers try to recapture it. It explores the earliest conceptions of innocence and the development of literature about children through contemporary times. It encompasses the pastoral, the dark pastoral, the anti-pastoral; it addresses picture books, fantasy, and realism. It looks with originality at the literature of childhood, inclusive of children's literature and literature about childhood, so that the child and adult can be seen reflexively: the child in the adult and the various stages of childhood as they are remembered and retained in adulthood. It confronts issues of primal and socially constructed desire and the use of childhood to talk about desire. It is a poetics, a way of imagining the experience of childhood and explores childhood as a particular, fluid, and porous time; it also addresses issues of creativity. This is an essential reference for teachers, parents, artists, and writers.
