**Race, Color, and Religion Matter** Carl L. Sweat Jr. D.Min M.Div MS BS, 2008-12-08 The secret things belong to the Lord our God but the things revealed belong to us and to our children forever that we may follow all the words of this law Deuteronomy 29 29 NIV As we ponder the question Do race color and religion matter we find that the initial response of many is No If in fact the reader accepts that everything the Creator has made was good then one can acknowledge without reservation that race color and religion have a beneficial existence If the reader can recognize that there is a plan and purpose for all things then without exception one must admit that race color and religion have a purpose on this earth and are ideal instruments of God Race color and religion are deeply intertwined within the life of mankind as well as with the Creator They exist as gifts dispersed among humanity for the purpose of diversified beautification They were destined by the Creator to be used in the fulfillment of His plan for the population of the earth and His plan of salvation Race color and religion serve as indicators of chronological time and are useful in the study of eschatology They serve as indicators of the three phases of human development the Physical Phase the Spiritual Phase and the Intellectual Phase They are also preordained factors of life for various reasons Some of these reasons have been revealed to humanity the others may not be known until the return of Christ If you are a person who believes that these three factors do not matter you must read this book If you are a person who believes the Christian Bible can be studied without consideration for race color and religion your understanding of the Holy Scriptures is both incomprehensive and inconclusive Through this book your eyes will be opened to a new awareness of the glorious and magnificent works the Creator has done and is doing This book provides a better understanding of the proclamations declared throughout biblical history Also you will be presented with an anthological survey designed to enhance the study of the Christian Bible with a focused consciousness of the topic Let this book serve as a sobering experience and a lesson that race color and religion truly matter

**Black History Should Be Taught 365 Days A Year** Jasper Cephus, 2021-06-08 Black history is unknown to so many people just me alone cannot reach them all with my book Black humans have more historical information than any other people in the world The study of Black history has become a branch of knowledge that feeds the world religious and spiritual life Control media use deceptive words or actions to coverup the truth about Black history There have been intentional destructions of ancient Black historical statues art and documents written in stone Fortunately some of the Black history survived and that proved much of Black history is hidden then falsely recreated in the images of white people This is damaging to the young Black and White children 1 White children are living a false sense of superiority complex for life 2 Black children living haven their identity stolen from them is psychologically

depressing I wrote this book to heighten the awareness around the world what has been done around to over 150 000 years of civilized Black history 1 recreating ancient statues in the images of white people 2 Changing the color of ancient art 3 Stop defacing ancient statues 4 Remove racist lies in the good book That is why I wrote Black History Should Be 365 Days A Year

**Martial Arts in the Modern World** Thomas A. Green, Joseph R. Svinth, 2003-11-30 Martial arts once restricted to a few specific locations and practiced by small groups of devotees have truly spread throughout the world The plethora of tae kwando and karate dojos in U S shopping malls attests to the popularity of various kinds of martial arts in this country Though generally perceived and advertised as means of self defense body sculpting and self discipline martial arts are actually social tools that respond to altered physical social and psychological environments This book examines how practitioners have responded to stimuli such as feminism globalism imperialism militarism nationalism slavery and the commercialization of sport In a series of chapters devoted to Asian African and European systems of the late 19th to early 21st centuries the authors examine the forces and philosophies that shaped fighting arts in diverse cultural settings Because of political social and economic factors this period witnessed the spread of martial arts to areas outside of their original contexts Some of these arts flourished in their new environments but others did not The authors demonstrate that martial arts are not the conservative strongholds of tradition posited by conventional wisdom but are instead responsive and mutable barometers of change This book is essential for students of multicultural dialogues and devotees of martial arts performance and practice
