Hans-Georg Moeller, Paul J. D'Ambrosio

Byung Chul Han Wikipedia :

You and Your Profile Hans-Georg Moeller, Paul J. D'Ambrosio, 2021-05-25 More and more we present ourselves and encounter others through profiles. A profile shows us not as we are seen directly but how we are perceived by a broader public. As we observe how others observe us, we calibrate our self-presentation accordingly. Profile-based identity is evident everywhere, from pop culture to politics, marketing to morality. But all too often critics simply denounce this alleged superficiality in defense of some supposedly pure ideal of authentic or sincere expression. This book argues that the profile marks an epochal shift in our concept of identity and demonstrates why that matters. *You and Your Profile* blends social theory, philosophy, and cultural critique to unfold an exploration of the way we have come to experience the world. Instead of polemicizing against the profile, Hans-Georg Moeller and Paul J. D'Ambrosio outline how it works, how we readily apply it in our daily lives, and how it shapes our values, personally, economically, and ethically. They develop a practical vocabulary of life in the digital age. Informed by the Daoist tradition, they suggest strategies for handling the pressure of social media by distancing oneself from one's public face. A deft and wide-ranging consideration of our era's identity crisis, this book provides vital clues on how to stay sane in a time of proliferating profiles.

Theological Discourses on Social Media Christopher B. Barnett, Clark J. Elliston, Trevor B. Williams, 2025-08-29 *Theological Discourses on Social Media* will examine ten different social media platforms across three overarching parts. The task throughout is first to delineate the configuration and intent of a given form of social media and second to probe its implications for theology. On the whole, the volume will focus on the Judeo-Christian tradition, though dialogue with and insight from other religious traditions will also be featured. The upshot will be a unique theological engagement with the defining issue of our era, a work that will be as relevant as it will be engrossing. Featuring contributions from leading scholars, it will be a must-read for all students of theology, religion, and media and cultural studies.

Nadim Samman Nadim Samman, 2023-05-31 Proprietary algorithms, secret data troves, and inscrutable systems rule the day. How is this registered in art? In *Poetics of Encryption*, Nadim Samman explores works that highlight the hidden dimensions of our technological landscape. Running counter to erroneous claims regarding a new culture of transparency and openness, such artworks address black sites, black boxes, and black holes, all the while toggling between enlightened concern and occult dreaming. NADIM SAMMAN is Curator for the Digital Sphere at KW Institute for Contemporary Art, Berlin. He read Philosophy at University College London before receiving his PhD from the Courtauld Institute of Art. Widely published in 2019, he was First Prize recipient of the International Award for Art Criticism (IAAC). Major curatorial projects included the 4th Marrakech Biennale 2012, the 5th Moscow Biennale for Young Art 2015, and the 1st Antarctic Biennale 2017.

Popular Culture and the Austerity Myth Pete Bennett, Julian McDougall, 2016-10-14 Contemporary popular culture is engaged in a rich and multi-levelled set of representational relations with austerity. This volume seeks to explore these relations, to ask how does popular culture give expression to austerity, how are its effects

conveyed how do texts reproduce and expose its mythic qualities It provides a reading of cultural texts in circulation in the present age of austerity Through its central focus popular culture it considers the impact and influence of austerity across media and textual categories The collection presents a theoretical deconstruction of popular culture s reproduction of and response to mythical expressions of austerity in Western culture spanning the United Kingdom North America Europe and the Middle East and textual events from political media discourse music videogames social media film television journalism folk art food protest movements slow media and the practice of austerity in everyday life [Narcocapitalism](#) Laurent de Sutter,2017-11-27 What do the invention of anaesthetics in the middle of the nineteenth century the Nazis use of cocaine and the development of Prozac have in common The answer is that they re all products of the same logic that defines our contemporary era the age of anaesthesia Laurent de Sutter shows how large aspects of our lives are now characterised by the management of our emotions through drugs ranging from the everyday use of sleeping pills to hard narcotics Chemistry has become so much a part of us that we can t even see how much it has changed us In this era being a subject doesn t simply mean being subjected to powers that decide our lives it means that our very emotions have been outsourced to chemical stimulation Yet we don t understand why the drugs that we take are unable to free us from fatigue and depression and from the absence of desire that now characterizes our psychopolitical condition We have forgotten what it means to be excited because our only excitement has become drug induced We have to abandon the narcotic stimulation that we ve come to rely on and find a way back to the collective excitement that is narcocapitalism s greatest fear [Tactical Publishing](#) Alessandro Ludovico,2024-01-16 How to level up to the next transformative phase of publishing with a critical methodology that transcends the dichotomy of paper and digital media production Publishing is experiencing one of the most transformative phases in its history In [Tactical Publishing](#) a sequel to [Post Digital Print](#) Alessandro Ludovico explores the forces driving this historical phase highlighting the tremendous opportunities it presents Our task he believes is to develop an alternative publishing system that transcends the dichotomy between paper and digital media He focuses first on the two activities on which publishing is premised reading and writing with an emphasis on writing machines and post truth in the latter and then deconstructs the concept proposing alternative strategies inspired by recent practices and unconventional uses of technology Ludovico shows how the radical and strategic use of print in the past can serve as the basis for our transition to the next phase of publishing He argues that the new ecology of publishing should be based on three main elements the stimulation of our senses the role of software in forming the publishing infrastructure and the importance of archives During this transition from the current post digital phase to the next phase independent publishers and artists as well as readers and machines will enable new structures and actions that realize the potential of publishing and the preservation of content thereby enriching social practices The author also considers the crucial social role played by new forms of libraries as artists and publishers shape the coming publishing world in its various manifestations Combining

analytical accounts of tactical strategies with examples from artworks and experimental practices the book concludes with a manifesto for publishing in the twenty first century and an appendix with a selection of one hundred publications representing the periodic table of future publishing

David Lynch Petra Giloy-Hirtz, 2014 Filled with dreamlike and eerie images this first book of photographs from the director David Lynch offers a window into the iconic filmmaker s creative vision Anyone familiar with David Lynch s cinematic achievement will identify similarities between this series of photographs and his most powerful films Dark and beautiful mystical and enigmatic these photos reveal Lynch s unique style The exterior and interior black and white shots of factories in Berlin Poland New York England and other locations are filled with Lynchian characteristics labyrinthine passages decaying walls industrial waste and detritus Devoid of nature the dying manmade structures are actually being overtaken by nature s innate power They are haunting cathedrals of a bygone industrial era the perfect setting for a David Lynch film and a revealing addition to his unique and fascinating oeuvre
