Immigration

New Immigrants from Europe

Immigrants from Europe, especially from Italy and Ireland, were the most numerous immigrants to the United States in the late 19th and early 20th centuries. They were often poor and uneducated, and many came to work in factories and mines.

Ellis Island and Angel Island

In 1890, the U.S. government established Ellis Island as the main immigration station for immigrants from Europe. Angel Island, located in San Francisco Bay, was established in 1910 to process immigrants from Asia.

Immigration and Naturalization Service

The Immigration and Naturalization Service (INS) was established in 1890 to oversee the immigration process. It was responsible for processing immigrants, issuing visas, and enforcing immigration laws. The INS was a part of the U.S. Department of Justice.

During the late 19th and early 20th centuries, the immigration process was often difficult and expensive. Immigrants had to pay for their passage and often faced long waits at the immigration stations. Many immigrants were poor and uneducated, and they often faced discrimination in the United States.

The New Immigrants

The new immigrants, also known as the "new immigrants," were primarily from Southern and Eastern Europe. They were often poor and uneducated, and many came to work in factories and mines. They were often referred to as the "new immigrants" because they were different from the "old immigrants" who had come to the United States in the 19th century.

Rosen, 2016-09-26 A cutting edge study showcases the emergence of contemporary youth activism in the United States its benefits to young people its role in strengthening society and its powerful social justice implications At a time when youth are too often dismissed as either empowered consumers or disempowered deviants it is vital to understand how these young people are pushing back challenging such constructions and advancing new possibilities for their institutions and themselves This book examines the latest developments in the field of contemporary youth activism CYA and documents the myriad ways in which youth activists are effecting social change even as they experience personal change By taking public political action on a range of intersecting issues youth activists are shifting their own developmental pathways shaping public policy and shaking up traditional paradigms Section one of the book offers a historical perspective on youth activism in the United States followed by a discussion of contemporary examples of CYA for social justice The second and third sections analyze the individual institutional and ideological effects of CYA arguing that youth activism works to promote change at three levels self systems and in the broader society Readers will come away with a clearer understanding of the many ways in which today s youth activists are working to reimagine and remake American democracy reawakening the promise of a multi issue progressive movement for social justice *A More Perfect Union [kit].: A more perfect union : teachers edition* , 1991 Race, Ethnicity, Gender, and Class Joseph F. Brockway,1982 **The New Immigration** Leif Jensen,1989-03-24 Lofty sentiments notwithstanding the United States has consistently sought to exclude impoverished immigrants from entering the country on the grounds that many become dependent on social welfare institutions Leif Jensen thoroughly explores the nature of poverty and public assistance utilization among immigrants to the United States during the years 1960 to 1980 Among the questions he explores are Has there been an increase in the level of poverty and the degree of public assistance utilized by immigrants to the United States during the past twenty years How do these levels compare to those for native born Americans and across key racial and ethnic groups How do individual and family characteristics affect the propensity of families to be poor or to receive public assistance Following an introduction to the study as a whole Jensen presents theoretical issues that bear on differences in poverty and welfare use He reviews U S immigration history with particular emphasis on those aspects that are relevant to poverty and the receipt of public assistance The chapters that follow review methodological issues then present the results of Jensen s empirical analysis two chapters focus on poverty at the family level and two consider public assistance utilization These chapters build a conceptual background for a multivariate model of poverty at the family level Because the mere propensity to receive public assistance is only one aspect of the welfare burden imposed by a particular group the author also examines the absolute amount of public assistance received Finally he synthesizes the key findings of his empirical analysis drawing conclusions regarding the pervasiveness of poverty and actual public assistance receipt among new immigrants Jensen s thorough analysis and provocative conclusions make this book essential reading for those interested in sociology demography economics and political science **World Studies: Eastern Hemisphere** Heidi Hayes Jacobs,Michal L. Santos,Mark Naylor,2019-02-14 Secularization as a movement away from a religious orientation to life is strong in Canada and has influence worldwide In this volume missiologists and practitioners across Canada consider how an agenda of

Christian mission and evangelism can be advanced in a secularizing environment How can believers be curious and engaged rather than defensive and fearful What changes are required from the evangelical community so that there is productive dialogue and action in ways that maintain faithfulness to the cause of Christ What should the approach of mission be to a new generation steeped in secular narratives How do we answer negative caricatures of Christian mission in light of the history of Residential Schools What examples from the past teach us about developing an irenic approach What positive trends are currently evident in Canada and around the world that counter the secularizing narrative These questions and more are considered in this volume by Canadian scholars who recognize the importance of being relevant to society while maintaining integrity with the Gospel message The essays address secularism in Canadian and worldwide contexts with seriousness insight and an underlying theme of hope recognizing that God s mission has been accomplished is being accomplished and will be accomplished
