Clegg, 2008-02-04 It is by no means a revelation that proteins are not uniformly distributed throughout the cell As a result the idea that protein molecules because of the specificity with which they can engage in interactions with other proteins may be aimed via these interactions at a restricted target is a fundamental one in contemporary molecular life sciences The target may be variously conceived as a specific molecule a group of molecules a structure or a more generic type of intracellular

environment Because the concept of protein targeting is intuitive rather than explicitly defined it has been variously used by different groups of researchers in cell biology biochemistry and molecular biology For those working in the field of intracellular signaling an influential introduction to the topic was the seminal article by Hubbard Cohen TIBS 1993 18 172-177 which was based on the work of Cohen's laboratory on protein phosphatases Subsequently the ideas that they discussed have been further developed and extended by many workers to other key intermediaries in intracellular signaling including protein kinases and a great variety of modulator and adaptor proteins Current Protocols in Molecular Biology Tabs Reprint Frederick M. Ausubel,2002-04-01 **Cellular Immunology LabFax** ,2014-05-19 LABFAX volumes are purpose designed data reference books for practicing scientists Each book presents the key information for a major subject in one place and so saves hours of searching The authors and editors of each LABFAX volume have searched the original literature for the accurate data they know the subject specialist needs Cellular Immunology Labfax is a detailed compendium of information on the tissues and cells of the immune system cell lines and hybridomas antigens and receptors the major histocompatibility complex soluble immunoregulatory molecules in vivo procedures important features of species used in immunological research and much more The contents of Cellular Immunology Labfax have been carefully chosen to complement the data presented in Immunochemistry Labfax It is therefore the companion volume to this text **Current Protocols in Molecular Biology Tabs** Frederick M.
