American Book Publishing Record Cumulative, 1876-1949 R.R. Bowker Company. Department of Bibliography, 1980 Research on Human Subjects, The use of human subjects in biomedical research has increased rapidly with scientific discoveries However the failure to achieve the highest or even adequate standards of professional moral concern and behavior is a serious side effect Research on Human Subjects is based on four years of intensive research in which two studies were completed one on a nationally representative sample of biomedical research institutions the second on a sample of 350 researchers who actually used human subjects The authors explore
