children asked to leave their mainstream schools because of their behaviour usually behaviour that is caused by their needs not being adequately addressed children who are in school but isolated from their peers If a child can't participate in activities or trips with the rest of the class or spends much of the day working one to one with a teaching assistant is this really inclusion The Pupil Premium has been established to ensure that children in receipt of free school meals are not disadvantaged why does something similar not exist for children with SEN Every health and wealth indicator that you could use to measure people with learning difficulties and special educational needs SEN reveals something alarming They die younger They work less They are more likely to live in poverty or end up in prison or face mental health difficulties They are much more likely to be excluded from school They are more likely to be bullied at school This has to end We all have to choose to commit to recognising that society as it is today is a difficult place for young people to thrive When you have autism or Down syndrome or any physical or learning difference it's even harder and the system as it stands isn't helping We need to acknowledge that this is not right that such a state of affairs must change and that we all have a part to play in making that change happen Jarlath offers suggestions for politicians Ofsted local authorities head teachers SENCOs teachers and teaching assistants about what they can do to make a difference For all politicians head teachers SENCOs teachers and parents
