

A custom-built RC car is shown from a top-down perspective, resting on a light-colored wooden surface. The car's chassis is black and features a clear plastic cover on the left side, revealing the suspension system with a red spring. A large black rectangular board, likely a computer or microcontroller, is mounted on top of the chassis. To the right, a green battery pack is connected to the system via black and red wires. A small electronic component, possibly a motor driver or sensor, is also visible on the right side of the chassis. The car has four black wheels with white hubs.
