Approach to Efficiently Automize & Manage Brushless DC Motor Using Pulse Width Modulation & Radio Frequency

Muhammad Junaid, 2015-02-10 Scientific Essay from the year 2015 in the subject Engineering Power Engineering grade N A course Electrical Power Engineering language English abstract The aimed objective of this Research project is to control the speed and direction of brushless DC Direct Current motor through RF Radio Frequency module Microcontroller is the central part of this project which is controlling all the process i e checking for over current under over voltage and starting the auxiliary motor for load sharing in case of overloading etc If the motor is having under or over voltage problems then it will automatically be stopped to protect it from any damages The process of speed control will be done by PWM Pulse Width Modulation technique lastly an advantage feature kept is the direction control of this motor *U-Go Healthy 2020* Sisca Mayang Phuspa, Ratih Andhika Akbar Rahma, 2022-09-20 The growth rate of the global halal industry has increased in recent years from 7.5% in 2015 to more than 8% in 2016 and is expected to continue to increase in 2017 and beyond Indonesia in particular has great potential in the development of the halal industry sector because of the percentage of Indonesia's population which constitutes 12.7% of the world's Muslim population The large potential of Indonesia in the halal industry sector can support national economic growth The market for halal industry in Indonesia especially the food travel fashion medicines and cosmetics sectors has reached around 11% of the global market in 2016 Behind the development of the halal industry globally there are challenges especially in the health sector The fact about guaranteeing halal products on drugs is still very alarming because the data from LPPOM MUI shows that out of 30 thousand types of drugs registered with BPPOM and circulating in the community only 34 drugs are halal certified In the food sector data shows that Indonesia is the highest spending country for halal food compared to other countries in the world with a total expenditure of 170 billion US dollars In the field of Occupational Health and Safety OHS is inseparable in the development of human resources in the halal industry The security and quality of the halal industry are also closely related to the quality of human resources and the nation's competitiveness The current development of the halal industry is fairly rapid in non Muslim majority countries such as Thailand South Korea Russia Mexico Japan and Spain On the contrary Indonesia has become a contested market target for halal products for foreign countries This condition will backfire for Indonesia if there are no quick steps to follow up on this problem Because Indonesian people will only be targeted by consumers in the halal industry market Strengthening regulatory development programs based on science and scientific and evidence according to standard development programs as well as strengthening the system of guidance and supervision of industrial security and its implementation in anticipation of the digital era needs to be done To answer this problem U GO Healthy Forum will hold International seminars and Call for Paper with the theme The Role of Health Expert in Solving Contemporary Issues in Halal Industry as the initial step to strengthen the security system of the halal industry **Introduction to Microelectronic Systems** Martin Bates, 2000 Due to its versatility low cost and rapid adoption in industry the PIC microcontroller is now beginning to replace conventional

microprocessor systems such as PLCs and the 8051 on electronics courses This manual is based on the PIC 16F84 which is cheap and reusable and the text is written for students with a minimal knowledge of microprocessor systems There are real time system examples
