The voices of practitioners and educators](#) Theo Gavrielides, Sofia Sideridou, Marianna Iosif, 2024-04-30 This is the second ebook in a series of three publications that form part of a larger programme that was conducted in October 2023 April 2024 The programme aimed to develop a framework for advanced or enhanced practice in nursing in social care settings in the United Kingdom To this end there is a need to understand the competencies required for enhanced and advanced nursing practice in social care and to

articulate the training that is currently on offer for nursing staff working in social care settings The overall programme hypothesis is that the evolving social care system requires the deployment of both enhanced and advanced nursing competencies and the creation of career grade opportunities such competencies require further description and definition to demonstrate the benefits of employing enhanced and or advanced social care nurses The research of the overall programme is structured around three phases Phase 1 involved comprehensive desk based research to establish a baseline for subsequent investigations Phase 2 is concluded with this ebook which is based on original fieldwork that was carried out between December 2023 February 2024 This involved 13 in depth semi structured interviews and 2 semi structured focus groups The first focus group nurses nursing background had 6 participants while the second one employers training providers consisted of 8 participants This second e book in the series represents a significant stride forward in the exploration of Advanced or Enhanced levels of practice for registered nurses within social care settings I was relieved to see that this original piece of qualitative research gathered top tier practitioners including frontline nurses employers and educational providers who could accurately paint the picture The e book delves deep into existing gaps and analyses with a profound understanding of the needs around infrastructure education funding and regulation in social care nursing Finally the research team not only provides clear guidance and recommendations but also outlines the necessary stakeholders and priorities It builds upon the groundwork laid in the first e book of the series advancing the practice of social care nursing Juliet Anderson Director Buckinghamshire Health and Social Care Academy To cite this ebook Gavrielides T et al 2024 Developing a framework for social care nurses enhanced or advanced practice The voices of practitioners and educators London RJ4All Publications ISBN 978 1 80463 001 3 Authors Gavrielides T Sideridou S and Iosif M DOI 10 13140 RG 2 2 14021 46567 Financial Management for Nurse Managers and Executives - E-Book Cheryl Jones, Steven A.
