

ISO 55000:2014

- An asset is an item, thing or entity that has potential or actual value to an organization.
- This standard provides the context for ISO 55001 and ISO 55002.
- This International Standard is primarily intended for use by:
 - those considering how to improve the realization of value for their organization from their asset base
 - those involved in the establishment, implementation, maintenance and improvement of an asset management system
 - those involved in the planning, design, implementation and review of asset management activities; along with service providers.
