Planning in the Asia Pacific Robert Kaplan,Richard Baldauf,2013-12-16 This volume covers the language situation in Hong
Kong Timor Leste and Sri Lanka explaining the linguistic diversity the historical and political contexts and the current
language situation including language in education planning the role of the media the role of religion and the roles of non
indigenous languages Two of the authors are indigenous to the situations described while the other has undertaken extensive
field work and consulting there The three monographs contained in this volume draw together the literature on each of the
polities to present an overview of the research available about each of them while providing new research based information
The purpose of the volume is to provide an up to date overview of the language situation in each polity based on a series of
key questions in the hope that this might facilitate the development of a richer theory to guide language policy and planning
in other polities where similar issues may arise This book was published as special issues of Current Issues in Language

Handbook of Life and Values Education in Asia John Chi-Kin Lee,Kerry J Kennedy,2024-06-28 This Handbook provides a
comprehensive look at the educational scope of life and values that characterize 21st century Asia as well as those values
shared across cultures Some values are deeply resonant with the region s past while others reflect modernity and the new
contexts in which Asian societies find themselves Exploring these values of different types and the way they are constructed
in Eastern and Western contexts the contributors delve into the diversity of religious moral and social education to promote

greater understanding across cultures While a range of values is identified here there is no single set of values that can be applied to all people in all contexts The time has long gone even for single societies when values can be imposed Yet this Handbook emphasizes both the extent and importance of values to individuals and their societies how they respond to these values may provide the key to better and more caring societies and to better lives for all Academics and teachers will find this Handbook resourceful because it raises important theoretical issues related to social values and their formation in distinctive contexts and provides novel insights into the diverse educational landscape in Asia Policymakers and educators will also find this text helpful in learning to think about new ways to improve the quality of people s lives *The Publishers Weekly* ,1923 **The Publisher** ,1910 School Government Chronicle and Education Authorities' Gazette ,1907 **British Books** ,1910
