Read the text below and answer the question below.

A city report has warned of the potential possibility of global warming, if the production of greenhouse gases continues at the current rate. This will result in the melting of ice sheets in Greenland and the Antarctic. The consequences of this will be rising sea levels, which will cause people to migrate to the present, and some, threaten the need for environmental protection in reducing emissions.

Reducing emissions will help to slow down the progress of global warming.
