of these techniques to actual modeling requires a great deal of system knowledge. The problem of mapping a given or hypothetical system onto a model is as important as solving the model itself. In order to formulate the real system into an abstract form, one must be knowledgeable about which models are mathematically tractable and how sensitive model solutions will be to specific assumptions and approximations introduced.

Recursive Programming Techniques William H. Burge, 1975. This book describes a particular method of programming which uses a programming language based on the notion of the lambda calculus. Preface.
