English American Indian and African ways and folklore indelibly shaped the young Tituba's world and the mental images she brought with her to Massachusetts. Breslaw divides Tituba's story into two parts. The first focuses on Tituba's roots in Barbados, the second on her life in the New World. The author emphasizes the inextricably linked worlds of the Caribbean and the North American colonies, illustrating how the Puritan worldview was influenced by its perception of possessed Indians. Breslaw argues that Tituba's confession to practicing witchcraft clearly reveals her savvy and determined efforts to protect herself by actively manipulating Puritan fears. This confession, perceived as evidence of a diabolical conspiracy, was the central agent in the cataclysmic series of events that saw 19 people executed and over 150 imprisoned, including a young girl of 5. A landmark contribution to women's history and early American history, *Tituba: Reluctant Witch of Salem* sheds new light on one of the most painful episodes in American history through the eyes of its most crucial participant. *Bordering the Baltic* Madeleine Hurd, 2010. In this book, scholars from different disciplines use case studies drawn from Sweden, Norway, Finland, and Denmark to analyze the last century's construction of engagement with and challenges to both hard and soft Scandinavian boundaries. The book provides historical examples of how national borders have been contested by Scandinavian states caught between powerful Continental neighbors; these attempts to firm up boundaries can be contrasted to the denationalization of borders caused both by the globalization of communications and markets and by political efforts to submerge national boundaries in a common Baltic identity. A second set of studies focuses on boundaries defining Scandinavian minorities. Here, the book analyzes the spaces, rituals, bodies, gender roles, and collective identity discourses implicit in majority-minority boundaries and their transgression. Throughout, Scandinavian bordering processes are studied in terms of the groups that launch them, the methods by which they are propagated, and finally, the meanings supposedly and actually invested in them. *Series Nordische Geschichte Vol. 10* **Coherence in the Midst of Complexity** H. Letiche, M. Lissack, 2011-01-02. A discussion on the social complexity approach where dialogue and stories allow for the degrees of freedom needed for the opportunities of emergence to take root. The authors focus on the experience of coherence and how such experiential lessons differ from the establishment and maintenance of categories and labels. *Living Psychology* James O. Lugo, Gerald L. Hershey, 1976. **The Smart Set** George Jean Nathan, Henry Louis Mencken, 1926. **The Bystander**, 1904. *Investigation of the Assassination of President John F. Kennedy* United States.
