The Promise and Peril of Credit Francesca Trivellato, 2021-06-08 How an antisemitic legend gave voice to widespread fears surrounding the expansion of private credit in Western capitalism *The Promise and Peril of Credit* takes an incisive look at pivotal episodes in the West s centuries long struggle to define the place of private finance in the social and political order It does so through the lens of a persistent legend about Jews and money that reflected the anxieties surrounding the rise of impersonal credit markets By the close of the Middle Ages new and sophisticated credit instruments made it easier for European merchants to move funds across the globe Bills of exchange were by far the most arcane of these financial innovations Intangible and written in a cryptic language they fueled world trade but also lured naive investors into risky businesses Francesca Trivellato recounts how the invention of these abstruse credit contracts was falsely attributed to Jews and how this story gave voice to deep seated fears about the unseen perils of the new paper economy She locates the legend s earliest version in a seventeenth century handbook on maritime law and traces its legacy all the way to

the work of the founders of modern social theory from Marx to Weber and Sombart Deftly weaving together economic legal social cultural and intellectual history Trivellato vividly describes how Christian writers drew on the story to define and redefine what constituted the proper boundaries of credit in a modern world increasingly dominated by finance
