21st Century Point and Figure Jeremy du Plessis, 2015-02-09 Advancing Point and Figure in the 21st Century Point and Figure has been around for over 130 years and the method is just as essential for chart analysis today as it always has been While the basic principles of the technique have remained unchanged those working with Point and Figure must still push the boundaries of how it is used looking to make it even more insightful and powerful This is exactly what Jeremy du Plessis has achieved with 21st Century Point and Figure Previously it was thought that the lack of time on Point and Figure charts meant that time based tools and indicators could not be used and lack of volume meant that the importance of individual columns could not be determined Jeremy du Plessis shows definitively that neither is the case and that with the use of lateral thinking there are also a host of other new techniques that can be added to Point and Figure charts and analysis In this advanced practical
