Strategies I Learned Becoming a VP Ronald J. Plachno, 2014-01-31 The Cellular explosion in the World Marketplace took our small 50 million a year car telephone business at Motorola and grew it rapidly to over a 15 billion a year huge enterprise It was an amazing ride and Motorola had some top talent that made it the leader in the field at least in the early years of Cellular Yes I indeed was at first one of the engineers and then one of the leaders in this dramatically expanding field But more importantly I was around some of the best leadership talent who helped teach me and others to deal with perhaps the business equivalent of riding white rapids down a raging river The business experience in this book is not just relevant to the Cellular industry but I believe transfers well to most other businesses in my opinion I have the highest admiration for some of those early leaders in Motorola Cellular and our great Industry Partners and learned much from them And yes I also did learn some knowledge on my own and often not the easy way This book is my attempt to share that knowledge with others willing to read it My purpose I wish I knew these items at the beginning It should not take 40 years to learn them I do understand that beauty is in the eye of the beholder and that there are perhaps other ways to learn business excellence But this is the learning I received as I grew rapidly in the Cellular Business explosion I moved from a low paid starting engineer to a VP in a Fortune 500 Company and then to a Sr VP in a California startup firm and then to founding a few small businesses on my own It has been a fun ride and a tremendous learning experience And I am now trying to share it with others as openly and honestly as I can Thank you for reading this and I indeed do wish you the very best Ron Plachno author
