thirds of English come from French the other third comes from German One of the best ways therefore to start rapidly acquiring vocabulary is to learn the most closely related words first You can get a working list of vocabulary in either Spanish French or Italian of 2000 3000 words this way The big advantage is that these kinds of words are simple to remember used a lot in everyday conversation and are easy to pronounce While it is not possible to acquire all your vocabulary from this simple method At least you can gain a great advantage over others who are unaware of this tremendous shortcut It s a fact that the reason why most people fail at language learning is not that they don t have the aptitude for it but rather they get stuck in learning things they ll never actually use in real life conversation This guide will focus on the following Myths About Learning A Foreign Language The subjunctive mood el modo subjuntivo Basic Conversation Asking Questions The Spanish Syntax Food Drinks Clothes Question Formation Sport Music Making Comparisons Stress and Accents Walking to The Way of Office Star Sunday For Spanish Tips for Spanish Learners AND MORE Spanish is the second most spoken language by learning Spanish you will open yourself to infinite working and traveling opportunities What are you waiting for Grab a copy now and start your journey of learning such an important language today **Learn Spanish for Beginners** Fernández Language Institute,2020-12-27 You Are About To Discover How You Can Learn To Speak Spanish In As Little As 7 Days Even If You ve Never Spoken It Before Boasting of over 500 million speakers 350 million of them being native speakers Spanish is the second most widely used language in international communication Therefore it makes sense to want to learn it to use it for both business and personal interactions So where do you start How do you speak Spanish without sounding like a Google translator Can you know how to construct logical sentences and phrases in Spanish and probably speak it like the natives even if you ve never spoken Spanish before How can you read and write in Spanish without using a translation tool which often messes up meaning How can you start using Spanish in everyday conversations without sounding off If you are passionate about learning Spanish and have these and other related questions this book is for you so keep reading as it covers powerful strategies that will get you reading and speaking Spanish in as little as 7 days It takes the fluff out of the learning process and goes straight to the point covering the specific things that you actually should learn and master if you are to stand any chance of reading understanding writing and speaking Spanish More precisely the book covers Spanish grammar so you know exactly how to construct proper sentences in Spanish How to use articles and adjectives in Spanish How to effectively use prepositions in Spanish properly to ensure your statements make sense How to use pronouns and verbs correctly in Spanish to help you write and speak coherent sentences or statements How to use numbers in Spanish without sounding like a two year old How to put it all together with words and or phrases that you can use in everyday places like in hotels schools while traveling when meeting new people and in many other everyday situations And MUCH MORE Even if speaking Spanish in 7 days may seem like an impossible feat when you ve never spoken Spanish before the methodology used in this book will prove you otherwise And the good thing is that it is not hard as the book takes an easy to
