From the contents In the Shotokan kata the style typical techniques are repeated from the first to the last kata again and again This is the right way to do it since as we all know one cannot practice enough if one wishes to master a technique completely For this reason there are many techniques in this book that have already been presented in the third volume in different interpretations But now those at higher levels are addressed and one can and must require more This is why some applications will differ from the kata techniques somewhat more than before The advantage is that additional applications are presented The dan holder having experience in karate will have no problem implementing the complex Bunkai techniques or expanding them with his own perceptions
