Export Contact List Services United States. Industry and Trade Administration,1979 The Government Procurement Card Great Britain: Parliament: House of Commons: Committee of Public Accounts,2012 The Government Procurement Card GPC is a payment card which individuals can use to purchase goods and services the supplier is paid immediately and the balance is paid in full each month by departments However inappropriate or fraudulent use of the card brings significant risks The strength of the controls in place varies significantly between departments This is particularly evident in the Ministry of Defence which accounts for around three quarters of total GPC expenditure but which limits checks to only a sample of its transactions The Cabinet Office has overall responsibility and recently created a GPC Steering Group The Steering Group introduced a central GPC policy in November 2011 setting out a minimum standard across government The central policy should consider going further for example by specifying 100% transaction checking blocking categories of expenditure by default banning use of the card for certain items such as alcohol and ensuring that all cardholders are permanent staff members However the initial challenge will be for the GPC Steering Group to ensure that the policy as it stands is being implemented and to hold departments to account where there are found to be gaps in the design and implementation of controls As procurement processes have advanced substantially the estimated difference in cost of using a card over other methods has reduced The Cabinet Office has now committed to refreshing the business case which should help departments to make the right decisions about when using the cards is the most cost effective way of buying goods and services *Acquiring Card Payments* Ilya Dubinsky,2019-09-03 This book delves into the essential concepts and technologies of acquiring systems It fills the gap left by manuals and standards and provides practical knowledge and insight that allow engineers to navigate systems as well as the massive tomes containing standards and manuals Dedicated to card acquiring exclusively the book covers Payment cards and protocols EMV contact chip and contactless transactions Disputes arbitration and compliance Data security standards in the payment card industry Validation algorithms Code tables Basic cryptography Pin block formats and algorithms When necessary the book discusses issuer side features or standards inasmuch as they are required for the sake of completeness For example protocols such as EMV 3 D Secure are not covered to the last exhaustive detail Instead this book provides an overview justification and logic behind each message of the protocol and leaves the task of listing all fields and their formats to the standard document itself The chapter on EMV contact transactions is comprehensive to fully explain this complex topic in order to provide a basis for understanding EMV contactless transaction A guide to behind the scenes business processes relevant industry standards best practices and cryptographic algorithms *Acquiring Card Payments* covers the essentials so readers can master the standards and latest developments of card payment systems and technology **The Master Guide to Controllers' Best Practices** Elaine Stattler,Joyce Anne Gabel,2020-06-10 The essential guide for today s savvy controllers Today s controllers are in leadership
