Bureau of Reclamation, 1995 *Key Thinkers in Psychology* Rom Harré, 2006 The author presents an accessible textbook combining the personal history of the major protagonists of the last century organised by schools of thought with their significant contributions to the discipline **Effective Speaking** Christopher Turk, 2002-11 *Effective Speaking* provides the hard scientific information about audience psychology text preparation presentation methods voice production body language and persuasive advocacy which will help would be speakers improve their performance The emphasis throughout is on practical self help on methods which have been shown to work with clear explanations of just why they are effective **The Fleet**, 1926 **Social Interaction** Michael Argyle, **National Union Catalog**, 1973 Includes entries for maps and atlases **Case Conference**, 1928 Wright's Australian and American Commercial Directory and Gazetteer, 1881 *California. Court of Appeal (1st Appellate District). Records and Briefs* California (State)., **16** Wisconsin. Adjutant General's Office, 1886 *Groups and Group Rights* Christine T. Sistare, Larry May, Leslie Francis, 2001 In matters such as affirmative action or home schooling rights of ethnic and other minority groups often come into conflict with those of society in a culturally diverse population such as ours But before considering the dilemmas posed by these issues we must first ask such basic but important questions as what group rights are and how they intersect with the principles of democracy This new collection brings together some of today's leading thinkers from the cutting edge of these debates taking in a broad range of issues confronting philosophers sociologists and political scientists Contributors such as Carl Wellman Carol Gould and Rex Martin examine the nature of groups and the conflict between group rights and democracy and also consider case studies depicting current issues in cultural ethnic and religious rights The first section on the nature of groups examines some of the perplexing alternatives in the formulation of a theory of group rights These articles investigate the kinds of rights minorities might claim and ask when groups can be held responsible for the acts of some of their members The second section addresses the treatment of groups in a democracy and the precarious balance between indifference toward minorities

and capitulation to their demands Here the contributors examine five principles for the sensitive treatment of minority and disadvantaged groups in a democratic society A final section explores specific conflicts between subgroup and societal claims through case studies dealing with affirmative action religious practice and the education of children and the land rights of indigenous peoples By drawing on the legal and political dilemmas related to these cases the authors confront issues of core versus peripheral interests of individual member versus subgroup rights and of the possibilities for social openness raised in the preceding sections Written from varied perspectives Groups and Group Rights offers stimulating reading for both students and professionals as it takes on some of the most pressing dilemmas confronting our society **Social Work**
