Programming with Structured Flowcharts and Essential Python Krishna Agarwal, Achla Agarwal, 2022-09-23 Although structured flowcharts have been in use for less than a decade they have found wide acceptance as an aid to developing software They may be used for writing new algorithms in a step wise manner or they

may be used for documenting existing programs The major advantage of structured flowcharts is that they make the control section of a program easier to understand This is especially true when the person revising the program is different from the one who wrote it a very common practice Since it is difficult to make a structured flowchart larger than a page it automatically encourages modularization of a large program
