Hypothetico Deductive Method A Comparative Analysis:

Routledge Revivals: The Dilemma of Qualitative Method (1989) Martyn Hammersley, 2018-02-01 Originally published in 1989 The Dilemma of Qualitative Method is a stimulating guide to the discussion of qualitative versus quantitative approaches to social research originated in nineteenth century debates about the relationship between the methods of history and natural science One of the key theorists in this area was Chicago sociologist Herbert Blumer The book analyses the historical context of the dispute and provides a detailed account and systematic analysis Blumer s methodological writings including his doctoral thesis The strategies for qualitative research advocated by Blumer within the Chicago tradition are reviewed and assessed *A Comparative Analysis of the Contemporary Marxists' Theories in the Post-Cold War Era* Woojin Moon, 1994

The Sage Handbook of Qualitative Research Quality Uwe Flick, 2024-12-12 This Sage Handbook presents an interdisciplinary collection of chapters exploring how to assess the quality of collecting and analysing qualitative data while maintaining a focus on diversity digital and critical approaches The Handbook considers essential questions such as what is good qualitative research What makes qualitative research good research And how can we make qualitative research better research Contributions come from a wide array of experts and highlight answers to questions from various disciplinary and geographical areas from mixed methods to multimodal and online research from specific types of data and methods to specific target groups and from theoretical and epistemological contexts to those where funding has an impact on how research is done and assessed Qualitative research has evolved in many respects in recent decades and has grown increasingly multidisciplinary Research in general is facing new challenges around how to take diversity and decolonisation into account in what researchers do as well as how to produce and communicate qualitative research quality This Handbook offers a timely overview of such developments and will support researchers involved in planning designing doing and evaluating qualitative research in developing an increased sensitivity for contemporary debates and challenges in the field Part I Philosophies and Epistemologies of Qualitative Research Quality Part II Disciplinary Discourses of Qualitative Research Quality Part III Qualitative Research Quality for Specific Approaches Part IV Rethinking Qualitative Research Quality for Specific Methods and Data Part V Rethinking Strategies for Quality in Qualitative Research Part VI Rethinking Criteria for Quality in Qualitative Research Part VII Extending Contexts and Challenges for Qualitative Research Quality

and a summary table Provides the professional with a useful handbook covering all tools used in fluvial geomorphology Also provides valuable information on the advantages and limitations of the tools All chapters include case studies to give examples of the applications of the tools discussed

Hunting Causes and Using Them Nancy Cartwright, 2007-05-31
Hunting Causes and Using Them argues that causation is not one thing as commonly assumed but many There is a huge variety of causal relations each with different characterizing features different methods for discovery and different uses to which it can be put In this collection of new and previously published essays Nancy Cartwright provides a critical survey of philosophical and economic literature on causality with a special focus on the currently fashionable Bayes nets and invariance methods and it exposes a huge gap in that literature Almost every account treats either exclusively how to hunt causes or how to use them But where is the bridge between It is no good knowing how to warrant a causal claim if we don't know what we can do with that claim once we have it This book will interest philosophers economists and social scientists

Doing Research on Crime and Justice Roy King, Emma Wincup, 2008 Focusing on the problems that novice researchers encounter when translating neat and tidy textbook methodologies into real life situations this guide explains how to undertake research in the fields of criminology and criminal justice

Research Methods in Human Rights Bård A. Andreassen, Hans-Otto Sano, Siobhán McInerney-Lankford, 2017-05-26 Methodological discussion has largely been neglected in human rights research with legal scholars in particular tending to address research methods and methodological reflection implicitly rather than explicitly This book advances thinking on human rights methodology offering instruction and guidance on the methodological options for human rights research

Political Research Sandra Halperin, Oliver Heath, 2017 This title equips students of politics and international relations with the analytical skills and resources to evaluate understand and criticise research findings in political research as well as the practical skills to carry out their own research

Social History Miles Fairburn, 1999-05-26 Drawing examples from some of the classic works in the discipline Miles Fairburn examines the nature varieties schools and evolution of social history Intended for advanced students and practising social historians who see social history as a problem solving discipline the methodological problems examined include the absence of social categories fragmenting evidence the appraisal of rival explanations the use of socially constructed evidence to substantiate claims about realities how to avoid presentism and when its practice is justifiable how to distinguish important causes and how to tell similarities from differences

Music and Knowledge: A Performer's Perspective Per Dahl, 2019-02-18 FREELY AVAILABLE ONLINE AS OPEN ACCESS BOOK This book illustrates the acquisition of knowledge in a musician's performative practice and how this can contribute to the development of Artistic Research Using a broad understanding of knowledge the first part of the book presents aspects of the practitioner knowledge a musician develops through daily exercises and performances Technical and practical skills creativity and music reading are central topics Part II describes four different methodologies of knowledge accumulation First is the hypothetico deductive method music as

object Then the author asks Where is the musical work After an introduction to semiotics the question that must follow is Is music a language Following up methodologies focusing on intersubjective and contextual topics the presentation of hermeneutics generates the question What happens to the music when you are listening Being the most subjective phenomenology is the last methodology to be presented The question it poses is Are analysis and interpretation two sides of the same coin Artistic research is a new perspective in knowledge acquisition and the performing artist is the pivot point The obvious insight positioning music beyond the score is elaborated into a critique of the representational theory as a relevant ontological discourse in music As an alternative the potential in embodied meaning theories is discussed through cognitive linguistic and artistic approaches Artistic expressions convey the subjective practitioner knowledge based on the difference between the objective sign and the intersubjective expression This makes music as communication the ultimate topic In conclusion understanding the meaning construction and the conditions of artistic content are both of importance in artistic research
