The Art of Strategic Listening Robert I. Berkman, 2008 Social media is the catch all name for blogs Web forums YouTube MySpace FaceBook and the other internet based sites where consumers converse and share content All of this unsolicited and authentic discussion and opinion can be a great source of marketplace insight for companies From paying close attention to consumer discussions on blogs and other social media you can discover what new products or product features consumers would like to see and stay alert to emerging trends in your industry that could create new opportunities for your company Robert Berkman an experienced information specialist with several books to his credit gives detailed directions for specialized blog searches setting up RSS feeds and tracking buzz He also provides detailed information about vendors who supply blog monitoring services and discusses the pros and cons of using vendors or doing it yourself For marketers public relations firms strategic business analysts and corporate planners this book gives you everything you need to know to begin finding market intelligence in social media You will learn to look for trends distinguish a trend from a fad and determine the credibility of the information you uncover Moreover Berkman provides you with tips on organizing all the information you find to help you sift through it locate just the valuable and relevant content and reduce information overload

**Understanding Cybersecurity Technologies** Abbas Moallem, 2021-12-14 Cyberattacks on enterprises government institutions and individuals are exponentially growing At the same time the number of companies both small and large offering all types of solutions has been increasing too Since companies rely on technological solutions to protect themselves against cyberattacks understanding and selecting the right solutions among those offered presents a significant challenge for professionals company executives and newcomers to the cybersecurity field FEATURES Presents descriptions for each type of cybersecurity technology and their specifications Explains applications usages and offers case studies to enhance comprehension Offers an easy to understand classification of existing cybersecurity technologies Provides an understanding of the technologies without getting lost in technical details Focuses on existing technologies used in different solutions without focusing on the companies that offer these technologies This book is intended to help all professionals new to cybersecurity students and experts to learn or educate their audiences on the foundations of the available solutions **Get Your Knee Off Our Necks** Bruce E. Johansen, Adebowale Akande, 2022-01-04 The death of George Floyd on May 25 2020 and the ensuing trial of Derek Chauvin for murder a year later has rubbed raw the bloodiest stain on the United States history and its world reputation The nine minutes and 29 seconds during which Chauvin s knee crushed the spark of life out of Floyd was not unusual in the history of the United States Before the U S Civil War slaves were routinely beaten to death for disobeying orders or running away then often lynched In roughly two centuries Blacks have achieved nominal freedom But as this book s opening chapter and expert essays that follow indicate freedom has been conditional based on inequity of wealth social and legal discrimination None of this is new in the United States what is new is the number of people rising up

in protest a figure in the millions around the world after Floyd's murder This book supplies a readable scholarly account of recent issues in race and racism in the United States that will be useful for general readers undergraduate students and their professors It will be useful in many fields including Black studies other ethnic pursuits United States history law criminal justice intercultural communication et al The work contains a powerful historical narrative followed by several important essays on subjects including George Floyd's murder the rise of the Black Lives Matter movement and many other victims of systematic racism

**End Times** Peter Turchin, 2023-06-13 Peter Turchin brings science to history Some like it and some prefer their history plain But everyone needs to pay attention to the well informed convincing and terrifying analysis in this book Angus Deaton winner of the Nobel Prize in Economics From the pioneering co founder of cliodynamics the groundbreaking new interdisciplinary science of history a big picture explanation for America's civil strife and its possible endgames Peter Turchin one of the most interesting social scientists of our age has infused the study of history with approaches and insights from other fields for more than a quarter century End Times is the culmination of his work to understand what causes political communities to cohere and what causes them to fall apart as applied to the current turmoil within the United States Back in 2010 when Nature magazine asked leading scientists to provide a ten year forecast Turchin used his models to predict that America was in a spiral of social disintegration that would lead to a breakdown in the political order circa 2020 The years since have proved his prediction more and more accurate and End Times reveals why The lessons of world history are clear Turchin argues When the equilibrium between ruling elites and the majority tips too far in favor of elites political instability is all but inevitable As income inequality surges and prosperity flows disproportionately into the hands of the elites the common people suffer and society wide efforts to become an elite grow ever more frenzied He calls this process the wealth pump it's a world of the damned and the saved And since the number of such positions remains relatively fixed the overproduction of elites inevitably leads to frustrated elite aspirants who harness popular resentment to turn against the established order Turchin's models show that when this state has been reached societies become locked in a death spiral it's very hard to exit In America the wealth pump has been operating full blast for two generations As cliodynamics shows us our current cycle of elite overproduction and popular immiseration is far along the path to violent political rupture That is only one possible end time and the choice is up to us but the hour grows late
