

Wave Recognition

A pair of pattern-recognition cards is used orally. The sequence combinations they pass through (including and excluding the observed) patterns. Individual combinations are given. Students produce the corresponding combinations. Make a similar recognition for different patterns that will produce. Use the same sets of patterns. They are identified & distinguished.

The grid consists of 10 rows of pattern-recognition cards. Each row contains two cards. The cards show a wave pattern on a grid background. The patterns are variations of a zigzag line. A legend on the right shows a box with 'A B C D' and a circular icon with a wave pattern.
