executives business owners compliance officers managers IT personnel Managed Service Providers staff and more The Small Business Owner's Guide to Protecting Your Business From Hackers Mike Skinner,Patrick Haxton,Carl de Prado,2022-11-14 As cybercrime continues to rise at an alarming rate it is now more important than ever to ensure that your business networks are protected from hackers your employees are properly trained to recognize cyber security threats that could wreak havoc on your business and that businesses are implementing a strong cyber security plan that will help mitigate the threat of cybercrime Cybercrime threatens all businesses across the world regardless of size or revenue the likelihood of being hacked is imminent Unfortunately it is not IF but WHEN your business will be hacked What are you doing to protect your business from the evolving threat of cybercrime As cybercriminals continue to evolve their tactics business owners will need to increase security measures to not only safeguard their financial assets but also their business data from being stolen or compromised Too many times we hear of business owners turning their cheek to implementing cybersecurity measures to then have their business completely devastated by a cyber attack How much can you afford to lose in terms of both time and money Remember you must ask yourself this question as a business owner when it comes to protecting your business from cybercriminals In this book we have gathered strategies from 13 cyber security experts nationwide to give small business owners the information they need NOW to protect their businesses from cybercrime Brought to you by Chris Wiser of 7 Figure MSP the co authors include Mike Skinner Patrick Haxton Carl de Prado Dean Elliott Troy Solis Woodrow Cannon Tom Woolley Ross Dahman Logan Edmonds Matthew Jay Larry Reger Claude Louis Daniel Di Fulvio **Cyber Security Essentials for Small Businesses** Jonathan F Arena,2021-04-27 Cyber crime has surpassed the international drug trade top criminal moneymaker with damages expected to exceed 10 Trillion by 2025 These attacks are not being executed by the stereotypical hacker This is 21st century organized crime As a society cyber attacks are a problem we can no longer afford to ignore It is not an overstatement to say everyone is a target Every business organization and individual is at risk yet most do not even take the most basic cybersecurity steps to protect themselves even though there are straightforward and low cost measures that can be taken Even with the advancement of technology cyber criminals are still overwhelmingly using the tried and true methods of weak password exploitation phishing and confidence scams trusted access through compromised vendors openly accessible network ports to the Internet and un patched vulnerabilities to make light work of the business of cyber crime Because cyber criminals are having so much success with these basic methods they generally stick to what they know works This book outlines the five actionable steps every small business owner can take to significantly reduce the risk of becoming the next casualty of cyber crime While this book focuses on helping small businesses most of these topics also apply to individual computer users Foreign Cyber Threats Committee on Small Business United States House of Representatives,Committee on Small Business United State,2017-05-06 The information technology or IT revolution has provided small businesses with new tools and opportunities to compete in the global economy However cybersecurity experts

warn about the varied cyber threats facing America's 28 million small businesses. The Office of the National Counterintelligence Executive released a report in 2011 stating that tens of billions of dollars in trade secrets, intellectual property, and technology are being stolen each year from computer systems in the Federal Government, from corporations, and from academic institutions. China and Russia were cited as the two largest participants in cyber espionage. According to a recent report by Verizon Enterprise, over 70 percent of cyber attacks occurred in businesses with fewer than 100 employees. Even one cyber attack can be devastating for small businesses, making prevention and protection absolutely critical. A 2014 survey from the National Small Business Association estimated the average cost of a cyber attack on a small business to be over 32,000—a huge hit for a small business.
