Review Questions with Certified Solutions

1. What is the difference between a threat agent and a threat? -- **Correct!**

Answer: A threat agent is the local actor of an attack, whereas a threat is a category of objects, persons, or other entities that represents a potential danger to an asset. Threats are always present. Some threats manifest themselves in accidental occurrences and others are purposeful. For example, however, a fire that has begun is a condition in any attack. If you are worried that the fire then has spread to the threat agent, if you are worried about the fire, then that is the threat agent. If you are worried about the fire, then that is the threat agent.

2. What is the difference between a vulnerability and exposure of? -- **Correct!**

Answer: A vulnerability is a weakness or an error in a system or procedure.
