Environmentally Responsible Supply Chains in an Era of Digital Transformation Pietro Evangelista, Jukka Hallikas, Mohamad Y. Jaber, 2024-05-02 Currently available technologies can help make a supply chain resilient in volatile times whilst also keeping it responsible Environmentally Responsible Supply Chains in an Era of Digital Transformation focuses on the linkages between digital technologies and environmental sustainability research and outlines synergies for more resilient efficient and transparent supply chain management practices **Research Handbook on Open Government** Mila Gascón-Hernandez, Aryamala Prasad, J. R. Gil-Garcia, Theresa A. Pardo, 2025-03-12 This Research Handbook provides a comprehensive overview of scholarship on open government with insights into novel concepts approaches and trends Expert editors and contributing authors explore how the emergence of digital technologies has accelerated the promotion of open governments across the globe as well as research developments in the field This title contains one or more Open Access chapters *Achieving Total Value in the Built Environment* Greg Watts, Jason Challender, 2026-07-14 HealthTech Horizons: AI-Infused Metaverse Solutions for Smart Healthcare Systems Paolo Barsocchi, Joseph Bamidele Awotunde, Biswajit Brahma, Akash Kumar Bhoi, 2025-10-30 This book bridges cutting edge technology with practical healthcare applications offering readers a front row seat to the transformation of patient care diagnostics training and system management These technologies enhance diagnostics patient engagement and care delivery by creating smarter more connected and patient centric systems This book is organized into four key sections The first part focuses on AI's role in diagnostics predictive analytics and early disease detection showcasing how machine learning and data analysis improve accuracy and timeliness The second part investigates metaverse applications including virtual consultations immersive therapies and the design of mobile health mHealth solutions tailored for older adults emphasizing accessibility and inclusivity The third section presents integrated AI and metaverse solutions such as digital twins XR edge computing and real time healthcare deployments illustrating the potential for dynamic and intelligent care environments The final part discusses critical issues surrounding data privacy ethical governance and security within virtual healthcare settings highlighting blockchain enabled approaches to safeguard sensitive information Aimed at a broad audience of researchers developers healthcare providers and policymakers this book combines practical examples theoretical approaches and case studies to offer a comprehensive roadmap The synthesis of these emerging technologies envisions a future healthcare paradigm that balances technological innovation with ethical considerations and patient centered care principles Whether you are a healthcare professional technologist policymaker or innovator this book provides invaluable insights into AI in Smart Healthcare Systems Metaverse in Medicine AI Infused Metaverse Solutions Security Privacy and Ethics Patient Centric Healthcare Ecosystems Immersive Healthcare Experiences Inclusive mHealth Design Edge Fog and Cloud Integration Neuroimaging and Predictive Analytics *The Routledge Handbook of Islamic Economics and Finance* Hussain Mohi-ud-Din

Qadri, M. Ishaq Bhatti, Mohd Azmi Omar, 2025-08-06 Islamic finance is one of the fastest growing sectors of the finance industry due to a number of factors including the technology boom fintech blockchain and higher oil and commodity prices but also in particular its demand by 1.5 billion Muslims around the globe. It enjoys sustainably higher positive returns compared to its conventional finance counterparts specifically during financial crises. Moreover, it plays a major role in implementing the UN's Sustainable Development Goals due to its non-traditional source of long-term fund financing that advances social, environmental, and economic goals. The Routledge Handbook of Islamic Economics and Finance offers a detailed introduction to the current scholarship in this ever-expanding and emerging field. The book is divided into three parts covering Islamic business, Islamic economics, and Islamic finance respectively. Each chapter provides a balanced overview of current knowledge, identifying issues and discussing the relevant debates. The book seeks to explore the current developments and trends in Islamic economics, Islamic banking, and Islamic capital markets. It also covers the areas of Islamic social finance, impact investment, and Islamic microfinance, SMEs, poverty alleviation, and financial inclusion. Additionally, it launches the debate on the emergence, progress, challenges, and future potential of Islamic fintech and the Islamic digital economy. Furthermore, it sheds light on subjects such as the marketing of Islamic financial services and products, the circular economy, and the blue economy from an Islamic financial perspective. As well as surveying the current state of the art, the authors also reflect on where the research agenda is likely to advance in the future, making this the definitive resource for scholars and researchers in this area. **The American Journal of Science**, 1890 American Journal of Science, 1890

Governance in Sport Bonnie Tiell, 2025-06-17 At its core, sport governance encompasses two key elements: power and decision-making. To truly grasp a sport organization's purpose and structure, it's essential to understand who wields power and which decisions are made by those who possess it. Regrettably, the abuse of power coupled with ineffective governance and lackluster leadership has fostered widespread corruption within sport organizations, a situation that calls for a renewed commitment to practicing principles of good governance and restoring integrity and ethical conduct. In response, the updated and enhanced Governance in Sport: Analysis and Application, Second Edition, aims to equip students with the skills to navigate both ordinary and extraordinary situations encountered in the oversight and authority of sport organizations at all levels of sport. Governance in Sport examines sport governance from three broad analytical and applied perspectives: a legal and managerial overview of practices, processes, and policies in sport organizations encompassing ethical behavior, effective leadership, decision-making, and policy development; a framework of the structures and functions of regulatory agencies that govern state, national, regional, and international sports; and an applied overview of governance and authority in selected sectors of the industry, including professional sports, amateur sports, sports media, sports betting, esports, and more. Through examinations of contemporary hot-button issues and compelling new case studies covering the Ukraine invasion, Brittney Griner, transgender athletes in sports, LIV Golf versus the PGA, conference realignment, name, image, and likeness (NIL) issues,

the Kanjuruhan Stadium catastrophe and the workplace misconduct in the Washington Commanders organization students will see how governance differs in sport organizations at various levels in the United States and around the world Additional new features include the following Headlines begin each chapter calling out incidents of corruption within the sport industry Rules and Regulations Corners provide quick overviews of policies and laws affecting weighty issues Combating Corruption sections offer best practices for preventing and minimizing behavior deemed illegal unethical or counterintuitive Governance in Action case sidebars explore real world examples of conflicts and conundrums related to the chapter topic and include discussion questions suggested responses to the questions can be found in the instructor guide Recorded lectures by author Bonnie Tiell are available for each chapter of the book Instructors can use these videos to enhance their lectures With Governance in Sport students will develop an understanding of where power resides how decisions are made and the impact of those factors on the goals and structures of sport organizations

Climate Change 2022 - Mitigation of Climate Change Intergovernmental Panel on Climate Change (IPCC),2023-08-17 This Working Group III contribution to the IPCC Sixth Assessment Report provides a comprehensive and transparent assessment of the literature on climate change mitigation The report assesses progress in climate change mitigation options for reducing emissions and enhancing sinks With greenhouse gas emissions at the highest levels in human history this report provides options to achieve net zero as pledged by many countries The report highlights for the first time the social and demand side aspects of climate mitigation and assesses the literature on human behaviour lifestyle and culture and its implications for mitigation action It brings a wide range of disciplines notably from the social sciences within the scope of the assessment IPCC reports are a trusted source for decision makers policymakers and stakeholders at all levels international regional national local and in all branches government businesses NGOs Available as Open Access on Cambridge Core [Development Administration in Asia](#) Jose Veloso Abueva,East-West Center,Ford Foundation,1970 Papers rev originally presented at the Seminar on Development Administration East West Center University of Hawaii 1966 Sponsored by the Comparative Administrative Group of the American Society for Public Administration the East West Center and the Ford Foundation
