Machine Learning for Business Harrison Hurst, 2020-04-03 Are you prepared for the inevitable AI revolution? How can you use it in your current role as a business leader? Artificial intelligence has become the center of strategic decision making for organizations. It disrupts the way industries function, from sales and marketing to finance and HR. Companies are betting on AI to give them a competitive advantage. *AI for Business Leaders* is a thoughtfully crafted guide book designed specifically for business people that requires no programming. Through this book, you will learn about the current state of AI, how it is disrupting businesses worldwide, and in various areas, how it can impact your current role and what you can do about it. This book also delves into the different building blocks of AI and why it is necessary to have a high-level overview of these topics in today's data-driven world. We will also offer you several practical case studies at the end of the course that will test your understanding and add context to everything you have studied. By the time you have completed the book, you will be ready to apply your newly acquired knowledge to your current organization. You can make informed strategic decisions for yourself and your company. Who is this course for? CXOs, Business Managers, MBA students, Entrepreneurs. Any one interested in understanding and applying these technologies for business use. [Artificial Intelligence and Machine Learning for Business](#)
