Mastermind How To Think Like Sherlock Holmes:

Mastermind Maria Konnikova, 2013-12-31 The New York Times bestselling guide to thinking like literature's greatest detective Steven Pinker meets Sir Arthur Conan Doyle Boston Globe by the author of *The Confidence Game* No fictional character is more renowned for his powers of thought and observation than Sherlock Holmes But is his extraordinary intellect merely a gift of fiction or can we learn to cultivate these abilities ourselves to improve our lives at work and at home We can says psychologist and journalist Maria Konnikova and in *Mastermind* she shows us how Beginning with the brain attic Holmes's metaphor for how we store information and organize knowledge Konnikova unpacks the mental strategies that lead to clearer thinking and deeper insights Drawing on twenty first century neuroscience and psychology *Mastermind* explores Holmes's unique methods of ever present mindfulness astute observation and logical deduction In doing so it shows how each of us with some self awareness and a little practice can employ these same methods to sharpen our perceptions solve difficult problems and enhance our creative powers For Holmes aficionados and casual readers alike Konnikova reveals how the world's most keen eyed detective can serve as an unparalleled guide to upgrading the mind *The Confidence Game* Maria Konnikova, 2017-01-10 It's a startling and disconcerting read that should make you think twice every time a friend of a friend offers you the opportunity of a lifetime Erik Larson 1 New York Times bestselling author of *Dead Wake* and bestselling author of *Devil in the White City* Think you can't get conned Think again The New York Times bestselling author of *Mastermind* How to Think Like Sherlock Holmes explains how to spot the con before they spot you An excellent study of Con Artists stories the human need to believe Neil Gaiman via Twitter A compelling investigation into the minds motives and methods of con artists and the people who fall for their cons over and over again While cheats and swindlers may be a dime a dozen true conmen the Bernie Madoffs the Jim Bakkers the Lance Armstrongs are elegant outsized personalities artists of persuasion and exploiters of trust How do they do it Why are they successful And what keeps us falling for it over and over again These are the questions that journalist and psychologist Maria Konnikova tackles in her mesmerizing new book From multimillion dollar Ponzi schemes to small time frauds Konnikova pulls together a selection of fascinating stories to demonstrate what all cons share in common drawing on scientific dramatic and psychological perspectives Insightful and gripping the book brings readers into the world of the con examining the relationship between artist and victim *The Confidence Game* asks not only why we believe con artists but also examines the very act of believing and how our sense of truth can be manipulated by those around us **How Sherlock Pulled the Trick** Brian McCuskey, 2021-06-01 A masterful combination of literary study and author biography *How Sherlock Pulled the Trick* guides us through the parallel careers of two inseparable men Sherlock Holmes and his creator Sir Arthur Conan Doyle Reconsidering Holmes in light of Doyle's well known belief in Victorian spiritualism Brian McCuskey argues that the so called scientific detective follows the same circular logic along the same trail of questionable evidence that led Doyle to the sance room Holmes's first case *A Study in Scarlet*

was published in 1887 when natural scientists and religious apologists were hotly debating their differences in the London press In this environment Doyle became convinced that spiritualism as a universal faith based on material evidence resolved the conflict between science and religion The character of Holmes with his infallible logic was Doyle s good faith solution to the cultural conflicts of his day Yet this solution has evolved into a new problem Sherlock Holmes now authorizes the pseudoscience that corrupts our public sphere defying logic revising history and promoting conspiracy theories As this book demonstrates wearing a deerstalker does not make you a mastermind more likely it marks you as a crackpot Fascinating and highly readable How Sherlock Pulled the Trick returns the iconic Holmes to his mystical origins

Music with Expressive Power Paul James,2024-10-02 People worldwide love to enjoy their preferred lifestyle Music is a powerful lifestyle choice It helps people shape and share their experiences Music evolves as does technology culture and the music business This book helps the reader to understand the changes to music and audio reproduction Enabling them to make informed choices about music and the audio equipment they use Thereby gaining richer musical experiences This book explains why high quality reproduction of music is hard It identifies some factors that influence the quality of reproduction such as careful listening Often discussions about music and audio ignore the role of the listener Yet a person s disposition sensory awareness and attention affect how they perceive music and what they experience from it As well as music students teachers and musicologists the book will appeal to those with a passion for quality music and the quality reproduction of music

Thinking Inside the Box Adrienne Raphel,2020-03-17 This cultural and personal history of crosswords and their fans written by an aficionado is diverting informative and discursive The New York Times Book Review Editors Choice A delightful erudite and immersive exploration of the crossword puzzle and its fascinating history Almost as soon as it appeared the crossword puzzle became indispensable to our lives Invented practically by accident in 1913 when a newspaper editor at the New York World was casting around for something to fill empty column space it became a roaring commercial success almost overnight Ever since then the humble puzzle has been an essential ingredient of any newspaper worth its salt But why exactly are the crossword s satisfactions so sweet Blending first person reporting from the world of crosswords with a delightful telling of its rich literary history Adrienne Raphel dives into the secrets of this classic pastime *Thinking Inside the Box* is an ingenious love letter not just to the abiding power of the crossword but to the infinite joys and playful possibilities of language itself

Gaps and the Creation of Ideas Judith Seligson,2021-03-08 *Gaps and the Creation of Ideas* An Artist s Book is a

portrait of the space between things whether they be neurons quotations comic book frames or fragments in a collage This twenty year project is an artist s book that juxtaposes quotations and images from hundreds of artists and writers with the author s own thoughts Using Adobe InDesign for composition and layout the author has structured the book to show analogies among disparate texts and images There have always been gaps but a focus on the space between things is virtually synonymous with modernity Often characterized as a break modernity is a story of gaps Around 1900 many independent strands of gap thought and experience interacted and interwove more intricately Atoms textiles theories women Jews collage poetry patchwork and music figure prominently in these strands The gap is a ubiquitous phenomenon that crosses the boundaries of neuroscience rabbinic thinking modern literary criticism art popular culture and the structure of matter This book explores many subjects but it is ultimately a work of art

Detective Fiction for Young Readers Chris McGee,2024-09-18 Detective Fiction for Young Readers is an examination of contemporary mystery stories for children and young adults This volume explores how the conventions rules and expectations of adult mystery fiction have filtered down so to speak especially in the past several decades to writing for younger readers The book is organized into three sections that explore the whodunit the hardboiled and the metaphysical styles of mystery fiction Furthermore this text analyzes how each style has been adapted for a younger audience acknowledging and exploring representative novels most in keeping with that style This volume is ideal for students academics and readers interested in children s mystery fiction that adheres to formulas made popular after the golden age of classic detective fiction
