

# Cheat Sheet Hospice Documentation

This cheat sheet covers the key hospice documentation requirements including election statements, certification of terminal illness, recertifications, and face-to-face encounters, ensuring compliance with CMS guidelines.

Category	Documentation details
<b>Beneficiary election statement</b>	Identification of the hospice providing care
	Acknowledgment of palliative vs. Curative treatment
	Acknowledgment of waiving traditional medicare benefits
	Effective date of hospice election
	Designated attending physician information (if applicable)
	Acknowledgment that the attending physician is the beneficiary's choice
	Signed and dated notice of election (noe)
<b>Initial certification of terminal illness (CTI)</b>	Certification signed by attending physician (if applicable) and hospice medical director within two days
	Verbal certification documented (if written cti was not signed in time)
	CTI includes benefit period dates (from and thru dates)
	CTI includes a physician narrative with clinical findings supporting life expectancy of six months or less
	Statement confirming the physician composed the narrative
<b>Subsequent certification (SC)</b>	Recertification statement signed by hospice medical director or physician
	SC signed and dated within two days of the certification period, no earlier than 15 days before certification
	SC includes benefit period dates and a physician narrative
	Attestation statement that the physician composed the narrative
	Face-to-face (FTF) encounter included (if applicable, for third or later benefit periods)
<b>Oral certification</b>	Obtained within two calendar days if written certification was delayed
	Physician providing oral certification is documented
	Statement that the individual's medical prognosis is six months or less

*Evidence-Based Practice Improvement* Rona Levin, Bonnie Lauder, 2024-02-27. Describes a superior model to guide empirical practice improvement projects. This unique text provides the academic and clinical healthcare communities with a tested, practical, and successful model (EBPI) to steer evidence-based practice improvement projects. The model, tested in multiple clinical settings, is distinguished from similar prototypes by its integration of the best EBP and quality performance improvement principles (QI), resulting in a highly practical and comprehensible model for guiding students and clinicians' work to improve quality outcomes in healthcare. The book emphasizes the need for collaboration among all stakeholders, particularly those in different disciplines, with different perspectives, to provide greater clarity and enhance improvement work in a clinical agency. It features a blueprint for guiding healthcare improvements based on evidence that incorporates potential changes of direction midstream. The book also introduces tools for the evaluation of organizational commitment, stakeholder choice, and sustainability of improvement projects. Section One of the text focuses on the background and development of the original EBPI model, followed by, in Section Two, an elaboration of the components of the new, enhanced model (EBPI). Chapter authors in Section Three describe how they used the components of the EBPI model, discussing lessons learned from its use. This section, connecting the theoretical basis for this work with real-world applications, includes a template that readers can use to facilitate their own projects. The final section investigates future approaches to improvement work. Comprehensive appendices provide useful tools for students and clinicians to use in developing, implementing, and evaluating any EBPI projects.

*Key Features*: Describes a practical and successful model incorporating the best of EBP and QI approaches (EBPI) for improving quality outcomes in healthcare. Incorporates a strong focus on how to determine and engage project stakeholders and provides tools for effective decision-making. Delineates specific methods to develop protocols for a small test of change prior to larger pilot studies. Delivers approaches, strategies for monitoring and evaluating sustainability. Discusses how to assess organizational commitment and conduct stakeholder analyses. Creates examples that use each component of EBPI as a template for readers. Emphasizes the how-to of implementation more than other competitive models.

*Oncology Informatics* Bradford W. Hesse, David Ahern, Ellen Beckjord, 2016-03-17. *Oncology Informatics: Using Health Information Technology to Improve Processes and Outcomes in Cancer Care* encapsulates National Cancer Institute-collected evidence into a format that is optimally useful for hospital planners, physicians, researchers, and informaticians alike as they collectively strive to accelerate progress against cancer using informatics tools. This book is a formational guide for turning clinical systems into engines of discovery as well as a translational guide for moving evidence into practice. It meets recommendations from the

National Academies of Science to reorient the research portfolio toward providing greater cognitive support for physicians patients and their caregivers to improve patient outcomes Data from systems studies have suggested that oncology and primary care systems are prone to errors of omission which can lead to fatal consequences downstream By infusing the best science across disciplines this book creates new environments of Smart and Connected Health Oncology Informatics is also a policy guide in an era of extensive reform in healthcare settings including new incentives for healthcare providers to demonstrate meaningful use of these technologies to improve system safety engage patients ensure continuity of care enable population health and protect privacy Oncology Informatics acknowledges this extraordinary turn of events and offers practical guidance for meeting meaningful use requirements in the service of improved cancer care Anyone who wishes to take full advantage of the health information revolution in oncology to accelerate successes against cancer will find the information in this book valuable Presents a pragmatic perspective for practitioners and allied health care professionals on how to implement Health I T solutions in a way that will minimize disruption while optimizing practice goals Proposes evidence based guidelines for designers on how to create system interfaces that are easy to use efficacious and timesaving Offers insight for researchers into the ways in which informatics tools in oncology can be utilized to shorten the distance between discovery and practice
