The Medieval World And Beyond Chapter 12:

Military Literature in the Medieval Roman World and Beyond, 2024-05-21 What do the mysterious Roman author Vegetius the Byzantine emperor Leo VI and the Chinese general Li Jing all have in common They are three of the dozens of authors across the medieval Mediterranean world and beyond who wrote works of military literature sometimes called military handbooks manuals or treatises This book brings together a multidisciplinary international team of scholars who present cutting edge essays on diverse aspects of medieval military literature While some chapters offer novel approaches to familiar authors like Vegetius some present research on under valued topics like Byzantine military illustrations and others provide holistic studies on subjects like early modern treatises they all move the discussion of medieval military literature forward Contributors are Michael B Charles Georgios Chatzelis Pierre Cosme Maxime Emion Immacolata Eramo Michael Fulton David Graff John Haldon Catharine Hof John Hosler Savvas Kyriakidis ukasz R ycki Katharina Schoneveld Georgios Theotokis Conor Whately Michael Whitby and Nadya Williams *Medieval Women Exercised Authority Beyond Official Records* Sarah Whitfield, 2026-02-01 Medieval women s power operated through channels that traditional chronicles rarely documented property management religious patronage trade networks and household governance This book examines how women across social classes exercised agency within and beyond legal constraints revealing a more complex picture of medieval society than male centered narratives suggest Drawing on wills account books monastic records and material evidence the narrative traces how women managed estates during Crusades controlled wealth through dowries and inheritances founded religious institutions and influenced political decisions through kinship networks Noblewomen negotiated treaties merchant wives ran businesses and abbesses governed entire communities with administrative and spiritual authority The book explores how women s documented activities challenge assumptions about medieval gender restrictions Through analysis of legal documents correspondence and archaeological finds it reveals economic contributions intellectual networks and political strategies that shaped medieval life Relevant for understanding how power functions outside formal institutions and how historical narratives privilege certain sources while marginalizing others that would complicate simplified stories about women s exclusion from medieval public life *Travellers, Intellectuals, and the World Beyond Medieval Europe* James Muldoon, 2017-05-15 As the articles reprinted in this volume demonstrate medieval men and women were curious about the world around them They wanted to hear about distant lands and the various peoples who inhabited them Travellers tales factual such as that of Marco Polo and fictional such as Chaucer s famous pilgrimage entertained audiences across Europe Colorful mappaemundi placed in churches illustrated these other lands and peoples for those who could not read Medieval travel literature was not only entertaining however it was also informative generating proto ethnological information about the world beyond Latin Christendom that provided useful guidance for those such as merchants and missionaries who intended to travel abroad Merchants learned about safe travel routes to foreign lands about

dangers to be avoided on the roads and at sea about cultural practices that might interfere with their attempts at trade and about products that would be suitable for foreign markets Churchmen read the reports of missionaries to understand the beliefs of Muslims and other non believers in order to debate with them and to learn their languages These articles illustrate how travellers reports in turn shaped the European response to the world beyond Europe and are set in context in the editor's introduction *Beyond Authenticity, Alternative Approaches to Hadith Narrations and Collections* Mohammad Gharaibeh, 2023-04-12 The studies in this volume go beyond the question of the authenticity of Prophetic narrations which has occupied the field of Hadith Studies for over a century By approaching hadith narrations and literature from various perspectives the authors seek to uncover the potential that hadith material has to better understand the intellectual and social history of Muslim societies Applying concepts and methods from other disciplines the authors study the materiality of hadith collections the places they were read and the ways they were incorporated in architecture Additionally they explore understudied genres such as the forty hadith the fa il a d th al a k m and aw l collections As such they set a new course to push the field of Hadith Studies in a new direction *The Humanistic Tradition* Gloria K. Fiero, 1992 *Ritual Murder in Russia, Eastern Europe, and Beyond* Eugene M. Avrutin, Jonathan Dekel-Chen, Robert Weinberg, 2017-07-12 A collection of essays exploring the history of an antisemitic accusation that haunted Jewish people in Europe and Russia and how it spread This innovative reassessment of ritual murder accusations brings together scholars working in history folklore ethnography and literature Favoring dynamic explanations of the mechanisms evolution popular appeal and responses to the blood libel the essays rigorously engage with the larger social and cultural worlds that made these phenomena possible In doing so the book helps to explain why blood libel accusations continued to spread in Europe even after modernization seemingly made them obsolete Drawing on untapped and unconventional historical sources the collection explores a range of intriguing topics popular belief and scientific knowledge the connections between antisemitism prejudice and violence the rule of law versus the power of rumors the politics of memory and humanitarian intervention on a global scale This important contribution to our understanding of the evolution of ritual murder charges in Eastern Europe brings together a number of innovative studies on the topic several of which could become standard reading on the subject Glenn Dynner Sarah Lawrence College While the topic was not exactly novel to me I enjoyed reading this book and I was constantly learning from the significant new information and fresh insights from the authors analyses Shaul Stampfer Hebrew University *Medieval Europe and the World Beyond* Gloria K. Fiero, 1995 *Beyond the Northlands* Eleanor Rosamund Barraclough, 2016-10-13 In the dying days of the eighth century the Vikings erupted onto the international stage with brutal raids and slaughter The medieval Norsemen may be best remembered as monk murderers and village pillagers but this is far from the whole story Throughout the Middle Ages long ships transported hairy northern voyagers far and wide where they not only raided but also traded explored and settled new lands encountered unfamiliar races and embarked on pilgrimages and crusades The Norsemen

travelled to all corners of the medieval world and beyond north to the wastelands of arctic Scandinavia south to the politically turbulent heartlands of medieval Christendom west across the wild seas to Greenland and the fringes of the North American continent and east down the Russian waterways trading silver skins and slaves Beyond the Northlands explores this world through the stories that the Vikings told about themselves in their sagas But the depiction of the Viking world in the Old Norse Icelandic sagas goes far beyond historical facts What emerges from these tales is a mixture of realism and fantasy quasi historical adventures and exotic wonder tales that rocket far beyond the horizon of reality On the crackling brown pages of saga manuscripts trolls dragons and outlandish tribes jostle for position with explorers traders and kings To explore the sagas and the world that produced them Eleanor Rosamund Barraclough now takes her own trip through the dramatic landscapes that they describe Along the way she illuminates the rich but often confusing saga accounts with a range of other evidence archaeological finds rune stones medieval world maps encyclopaedic manuscripts and texts from as far away as Byzantium and Baghdad As her journey across the Old Norse world shows by situating the sagas against the revealing background of this other evidence we can begin at least to understand just how the world was experienced remembered and imagined by this unique culture from the outermost edge of Europe so many centuries ago

The West A. Daniel Frankforter, William M. Spellman, 2003 This book interprets Western civilization broadly continuing to discuss the Middle East beyond the confines of the ancient period The chronologically organized narrative integrates political social economic and intellectual history It broadens readers perspective on the American experience in context with the rest of the world and helps them discover bridges to other cultures and develop sympathy with their struggles

KEY TOPICS Chapter topics cover The archaic states of the Bronze Age The Iron Age Aegean civilization the Hellenistic era and the rise of Rome Rome s empire and the unification of the Western world the West s medieval civilization the emergence of Europe Europe s High Middle Ages Renaissance and exploration Europe s scientific revolution American independence and the French Revolution the Age of Ideology in Western Europe 1815 1848 Europe and the World 1870 1914 World War I the Troubled Inter War Years 1919 1939 World War II the Cold War and bipolarism and the end of empires For an understanding of the processes that formed the Western way of life

The Humanistic Tradition. ,2002 Celts and Christians Mark Atherton, 2002 A collection of eight essays formerly lectures of the Centre for the study of Christianity and Culture presented in Oxford in 1999 *Study Guide, Volume I* Brian P. Levack, Michael Maas, Edward Muir, Meredith Veldman, 2006-03-16 *Producers, Traders and Consumers in Urban Societies in Southern Britain and Europe* Mark Maltby, Deborah Hodges, 2025-03-13 Papers honor Mark s research on urbanization and trade in Britain and Europe and his contributions to museums and museology In two sections the first provides up to date reviews of Hamwic Saxon Southampton and the second offers post excavation studies in Britain and Europe and also includes developments in the Museum and Heritage sectors

The Age of the Baroque and the European Enlightenment Gloria K. Fiero, 1992 It is the most curious thing I ever saw in all my life exclaimed Lewis Carroll

s Alice in Wonderland as she watched the Cheshire Cat slowly disappear leaving only the outline of a broad smile A student encountering an ancient Greek epic an African mask or a Mozart opera lacking any context for understanding these works might be equally baffled It may be helpful therefore to begin by explaining how the individual products of the humanistic tradition relate to the larger and more elusive phenomenon of human culture

The Medieval Voyage William F. Lawhead,2002 Highly praised by reviewers for its clarity and rich exposition this history of philosophy text illustrates philosophy as a process and not just a collection of opinions or conclusions Lawhead helps students retrace the philosopher s intellectual journey rather than simply giving a report of the results so that the students see how the problems arose Thus the philosopher s problem becomes a puzzle which the student has to face Lawhead uses metaphors analogies vivid images concrete examples common experiences and diagrams to bring the abstract issues down to earth and show the practical implications and contemporary relevance of positions
