Lectures on the History of Moral and Political Philosophy Jonathan Wolff, Gerald A. Cohen, 2013-10-27 Previously unpublished writings from one of the most important political philosophers of recent times G A Cohen was one of the leading political philosophers of recent times He first came to wide attention in 1978 with the prize winning book Karl Marx s Theory of History A Defence In subsequent decades his published writings largely turned away from the history of philosophy focusing instead on equality freedom and justice However throughout his career he regularly lectured on a wide range of moral and political philosophers of the past This volume collects these previously unpublished lectures Starting with a chapter centered on Plato but also discussing the pre Socratics as well as Aristotle the book moves to social contract theory as discussed by Hobbes Locke and Hume and then continues with chapters on Kant Hegel and Nietzsche The book also contains some previously published but uncollected papers on Marx Hobbes and Kant among other figures The collection concludes with a memoir of Cohen written by the volume editor Jonathan Wolff who was a student of Cohen s A hallmark of

the lectures is Cohen's engagement with the thinkers he discusses. Rather than simply trying to render their thought accessible to the modern reader, he tests whether their arguments and positions are clear, sound, and free from contradiction. Throughout, he homes in on central issues and provides fresh approaches to the philosophers he examines. Ultimately, these lectures teach us not only about some of the great thinkers in the history of moral and political philosophy but also about one of the great thinkers of our time: Cohen himself.

For many, it remains a moot point whether Derrida is the final rationalist in the wake of the Kantian revolution in philosophy or whether he has furnished a definitive overthrow of the Kantian worldview. Certainly, Kantian concerns are dealt with across the whole body of Derrida's work. *Kant after Derrida* is an edited collection of essays from an authoritative and international list of contributors that addresses the legacy of Kant after Derrida, assessing the principal points of contact and dissonance between the Derridean deconstructive approach and Kant's critical method.

Perfect for beginners, this book guides the reader through philosophy using illuminating cinematic works like *Avatar*, *Inception*, *Fight Club*, *Wings of Desire*, *Run Lola Run*, *A Clockwork Orange*, *Blade Runner*, *Dirty Harry*, and many other films. The fully revised and updated Third Edition features an expanded introduction that provides a new discussion of the relationship between film and philosophy, new material on notable philosophers such as Aristotle, Merleau-Ponty, and Rawls, and coverage of new topics like virtue ethics and what Socrates offers for critical thinking. An updated glossary, references, and bibliography, and a filmography are also included in the Third Edition.
