## **Journal Of Human Evolution:**

**Journal of Human Evolution**, 1989      **Human Evolution** Camilo J. Cela-Conde, Francisco J. Ayala, 2007-09-27 Human Evolution provides a comprehensive overview of hominid evolution synthesising data and approaches from fields as diverse as physical anthropology evolutionary biology molecular biology genetics archaeology psychology and philosophy The book starts with chapters on evolution population genetics systematics and the methods for constructing evolutionary trees These are followed by a comprehensive review of the fossil history of human evolution since our divergence from the apes Subsequent chapters cover more recent data both fossil and molecular relating to the evolution of modern humans A final section describes the evolution of culture language art and morality The authors are leading experts in two complementary fields of scholarship physical anthropology and molecular evolution Throughout the book they successfully integrate their expertise in evolutionary theory phylogenetics genomics cultural evolution language aesthetics and morality to produce a cutting edge textbook copiously illustrated and with an extensive and up to date bibliography It will be suitable for both senior undergraduate and graduate level students taking courses on human evolution within departments of biology anthropology psychology and philosophy The book will also appeal to a more general audience seeking a readable up to date and inclusive treatment of human origins and evolution      **Human Evolution and the Origins of Hierarchies** Benoît

Dubreuil, 2010-09-06 In this book Beno t Dubreuil explores the creation and destruction of hierarchies in human evolution Combining the methods of archaeology anthropology cognitive neuroscience and primatology he offers a natural history of hierarchies from the point of view of both cultural and biological evolution This volume explains why dominance hierarchies typical of primate societies disappeared in the human lineage and why the emergence of large scale societies during the Neolithic period implied increased social differentiation the creation of status hierarchies and eventually political centralisation      **Hominin Postcranial Remains from Sterkfontein, South Africa, 1936-1995** Bernhard Zipfel, Brian G. Richmond, Carol V. Ward, 2020-05-07 This volume is the first source to present an in depth analysis of postcranial fossils allowing readers to cross compare standardized data for themselves      Journal of Anthropological Research, 2021

Journal of Archaeological Science Society for Archaeological Sciences (U.S.), 1998      **Rethinking Human Evolution** Jeffrey H. Schwartz, 2018-02-02 Contributors from a range of disciplines consider the disconnect between human evolutionary studies and the rest of evolutionary biology The study of human evolution often seems to rely on scenarios and received wisdom rather than theory and methodology with each new fossil or molecular analysis interpreted as supporting evidence for the presumed lineage of human ancestry We might wonder why we should pursue new inquiries if we already know the story Is paleoanthropology an evolutionary science Are analyses of human evolution biological In this volume contributors from disciplines that range from paleoanthropology to philosophy of science consider the disconnect between human evolutionary studies and the rest of evolutionary biology All of the contributors reflect on their own research and its

disciplinary context considering how their fields of inquiry can move forward in new ways The goal is to encourage a more multifaceted intellectual environment for the understanding of human evolution Topics discussed include paleoanthropology s history of procedural idiosyncrasies the role of mind and society in our evolutionary past humans as large mammals rather than a special case genomic analyses computational approaches to phylogenetic reconstruction descriptive morphology versus morphometrics and integrating insights from archaeology into the interpretation of human fossils Contributors Markus Bastir Fred L Bookstein Claudine Cohen Richard G Delisle Robin Dennell Rob DeSalle John de Vos Emma M Finestone Huw S Groucutt Gabriele A Macho Fabrizzio Mc Manus Apurva Narechania Michael D Petraglia Thomas W Plummer J W F Reumer Jeff Rosenfeld Jeffrey H Schwartz Dietrich Stout Ian Tattersall Alan R Templeton Michael Tessler Peter J Waddell Martine Zilversmit

The American Journal of Sociology Albion W. Small, Ellsworth Faris, Ernest Watson Burgess, 1921 Established in 1895 as the first U S scholarly journal in its field AJS remains a leading voice for analysis and research in the social sciences presenting work on the theory methods practice and history of sociology AJS also seeks the application of perspectives from other social sciences and publishes papers by psychologists anthropologists statisticians economists educators historians and political scientists

Basics in Human Evolution Michael P Muehlenbein, 2015-07-24 Basics in Human Evolution offers a broad view of evolutionary biology and medicine The book is written for a non expert audience providing accessible and convenient content that will appeal to numerous readers across the interdisciplinary field From evolutionary theory to cultural evolution this book fills gaps in the readers knowledge from various backgrounds and introduces them to thought leaders in human evolution research Offers comprehensive coverage of the wide ranging field of human evolution Written for a non expert audience providing accessible and convenient content that will appeal to numerous readers across the interdisciplinary field Provides expertise from leading minds in the field Allows the reader the ability to gain exposure to various topics in one publication
