Polytechnic 2nd Year Diploma Engineering:

50 Years Of Technical Education In Singapore: How To Build A World Class Tvet System Natarajan

Varaprasad,2016-03-23 This book describes in vivid detail how a newly independent nation with neither a history of technical education nor industry developed in a short period of time a world class system of technical and vocational education that helped it make rapid progress in its manufacturing and industrial sector The economy and the education sector both developed in parallel with each complementing the other utilizing strategies and making the decisions that were to bring the country quickly to advanced status Studies show that premature investment in higher education at the expense of technical and vocational education has created many leaders but few doers leading to high unemployment The Singapore Technical Vocational Education and Training TVET story demonstrates how governmental support helped changed the image of technical and vocational education to one equal with higher education yet including bridges and ladders to allow everyone to maximize their potential

Reshaping Vocational Education and Training in Aotearoa New Zealand Selena

Chan,Nicholas Huntington,2022-10-25 This book contributes extensively to a better understanding of how vocational education and training VET and practice based learning and teaching is developed and designed It presents examples of vocational education as an ongoing dialogue continually refreshed through engagement between educators and learners M ori employers industry and others It demonstrates how the needs of learners can be met through relevant models of delivery and how organisations and individuals work towards equity of access and parity of outcomes for all It details the origins purposes and evolution of vocational organisations initiatives supporting M ori and Pasifika success and women in traditionally male dominated occupations the roles provisioning and impact of foundation VET across different contexts innovations through Certificate Diploma and Degree programmes of learning the contribution of new technologies to learning approaches and the efficacy of education and professional development for VET teachers This collection of chapters illustrates how Aotearoa New Zealand s VET system is responding to challenging and changing environments through new frameworks of practice approaches and models of delivery As an overview of a system in change it is of interest to VET educators system managers and policy makers
