Python Interview Questions and Answers - English

Navneet Singh, Here are some common Python interview questions along with their answers

What is Python Python is a high level interpreted programming language known for its simplicity and readability It supports multiple programming paradigms including procedural object oriented and functional programming

What are the key features of Python Key features of Python include Simple and easy to read syntax Dynamic typing and automatic memory management Extensive standard library Support for multiple programming paradigms High level data structures Portable and extensible

What is PEP 8 PEP 8 is the Python Enhancement Proposal that provides guidelines for writing Python code to improve its readability and maintainability It covers topics such as naming conventions code layout and programming practices

What are the differences between Python 2 and Python 3 Python 3 is the successor of Python 2 and includes several improvements and backwards incompatible changes Some key differences include

Print statement In Python 2 it s a statement `print Hello` while in Python 3 it s a function `print Hello`

Unicode support Python 3 handles strings as Unicode by default whereas Python 2 treats them as ASCII by default

Division operator In Python 2 division of integers results in an integer while in Python 3 it results in a float

xrange Python 2 has `xrange` for creating iterators while Python 3 uses `range` to achieve the same

What is a virtual environment in Python A virtual environment is a self contained directory that contains a Python installation for a particular version of Python plus several additional packages It allows you to work on a specific project without affecting the system wide Python installation or other projects

Explain the difference between list and tuple in Python Lists are mutable meaning their elements can be modified after creation Tuples on the other hand are immutable Lists are created using square brackets while tuples are created using parentheses Lists have more built in methods for manipulation while tuples have fewer methods due to their immutability

What is the difference between `==` and `is` in Python `==` checks for equality of values meaning it compares whether the values of two objects are the same `is` checks for identity meaning it compares whether two objects refer to the same memory location

What is a decorator in Python A decorator is a design pattern in Python that allows behaviour to be added to functions or classes dynamically Decorators are written using the `decorator_name` syntax and are applied using the symbol followed by the decorator name above the function definition

Explain the concept of list comprehension in Python List comprehension is a concise way to create lists in Python It consists of an expression followed by a `for` clause then zero or more `for` or `if` clauses It allows you to create a new list by applying an expression to each item in an alterable

What is the difference between `append` and `extend` methods in Python lists The `append` method adds its

argument as a single element to the end of a list The extend method takes an alterable such as a list and adds each element of the alterable to the list These questions cover a range of topics commonly discussed in Python interviews from basic syntax to more advanced concepts [Python Interview Questions You'll Most Likely Be Asked](#) Vibrant Publishers,2011-06-01 This is a perfect companion to stand ahead above the rest in today's competitive job market Rather than going through comprehensive textbook sized reference guides this book includes only the information required immediately for job search to build an IT career This book puts the interviewee in the driver's seat and helps them steer their way to impress the interviewer Includes 200 Python Interview Questions Answers and Proven Strategies for getting hired as an IT professional Dozens of examples to respond to interview questions 51 HR Questions with Answers and Proven strategies to give specific impressive answers that help nail the interviews 2 Aptitude Tests download available on www.vibrantpublishers.com
