Porter's 5 Forces

Moderate
Bargaining Power of Suppliers
 reliance on key suppliers for specialized components like displays (often from Samsung's own subsidiaries) and processors can limit this power to some extent.

Relatively Low
Threat of New Entrants
 Entering the smartphone market requires substantial capital investment in research and development, manufacturing facilities, and marketing.

Extremely High
Competitive Rivalry
 Samsung faces intense competition from Apple, Huawei, Google (Pixel), and other manufacturers.

High
Bargaining Power of Buyers
 Switching costs are relatively low, as consumers can easily switch to a different brand with a new contract or by purchasing an unlocked device.

Moderate
Threat of Substitutes
 Other devices like tablets, laptops, and traditional feature phones can fulfill some of the same needs.
