book draws on theories and concepts from human geography political ecology and Marxist political economy and aims to shift the trajectory of the current literature on the interplay between offsetting urbanization and the neoliberal reconstruction of conservation and planning policies in the era following the 2008 financial crash By shedding light on offsetting s contested geographies it offers a fundamental retheorization of offsetting capable of demonstrating how offsetting and more broadly revanchist neoliberal policies are increasingly used to support capitalist urban growth producing socially environmentally and geographically uneven outcomes Nature Swapped and Nature Lost brings forward an understanding of environmental politics as class politics and sees environmental justice as inextricably linked to social justice It effectively challenges the dystopia of offsetting s ahistorical and asocial non places and proposes a radically different pathway for gaining social control over the production of nature by linking struggles for the right to the city with struggles for the right to nature for all
