Rethinking Khoe and San Indigeneity, Language and Culture in Southern Africa Julie Grant, Keyan G. Tomaselli, 2022-09-19 The San hunter gatherers and Khoe herders of southern Africa were dispossessed of their land before during and after the European colonial period which started in 1652 They were often enslaved and forbidden from practicing their culture and speaking their languages In South Africa under apartheid after 1948 they were

reclassified as Coloured which further undermined Khoe and San culture forcing them to reconfigure and realign their identities and loyalties Southern Africa is no longer under colonial or apartheid rule the San and Khoe however continue in the struggle to maintain the remnants of their languages and cultures and are marginalised by the dominant peoples of the region The San in particular continue to command very extensive research attention from a variety of disciplines from anthropology and linguistics to genetics They are however usually studied as static historical objects but they are not merely peoples of the past as is often assumed they are very much alive in contemporary society with cultural and language needs This book brings together studies from a range of disciplines to examine what it means to be Indigenous Khoe and San in contemporary southern Africa It considers the current constraints on Khoe and San identity language and culture constantly negotiating an indeterminate social positioning where they are treated as the inconvenient indigenous Usually studied as original anthropos but out of their time this book shifts attention from the past to the present and how the San have negotiated language literacy and identity for coping in the period of modernity It reveals that Afrikaans is indeed an African language incubated not only by Cape Malay slaves working in the kitchens of the early Dutch settlers but also by the Khoe and San who interacted with sailors from passing ships plying the West coast of southern Africa from the 14th century The book re-examines the idea of literacy its relationship to language and how these shape identity The chapters in this book were originally published in the journal *Critical Arts South North Cultural and Media Studies*

Silence Maria-Luisa Achino-Loeb, 2005-12-01 This book is about silence and power and how they interact It argues that only by studying how silence works how it is implicated in the construction of meaning can we arrive at the elusive roots of power in all its dimensions Silence becomes the currency of power by delineating the margins or what we perceive and through a sleight of hand wherein behaviors undertaken in the service of self interest appear instead as inevitable and devoid of human agency The theoretical load of this argument is carried by vivid ethnographic material dealing with music linguistic behavior racial conflicts work dislocations and the construction of anthropological subjects and texts

Mafeking Diary Solomon Tshekisho Plaatje, 1990 Sol Plaatje's Mafeking Diary is a document of enduring

importance and fascination The product of a young black South African court interpreter just turned 23 years old when he started writing it opens an entirely new vista on the famous Siege of Mafeking By shedding light on the part played by the African population of the town Plaatje explodes the myth maintained by belligerents and long perpetuated by both historians and the popular imagination this this was a white man s affair One of the great epics of British imperial history and perhaps the best remembered episode of the Anglo Boer war of 1899 1902 is presented from a wholly novel perspective At the same time the diary provides an intriguing insight into the character of a young man who was to play a key role in South African political and literary history during the first three decades of this century It reveals much of the perceptions and motives that shaped his own attitudes and intellectual development and indeed those of an early generation of African leaders who sought to build a society which did not determine the place of its citizens by the colour of their skin The diary therefore illuminates the origins of a struggle which continues to this day John L Comaroff ed in his preface
