National Food Survey - Annual Report on Household Food Consumption and Expenditures 1999 Great Britain. Ministry of Agriculture, Fisheries and Food, 2000. This report provides information on household food consumption and expenditure data in 1999. It makes comparisons with the previous year and ten years ago as well as looking at developments in respect of eating out and nutrient intakes. Special analyses this year provide information about meat and meat products and fish and fish products. The survey is based on a random sample of 6 000 private households throughout the country. Results for Great Britain as a whole are followed by results broken down according to various geographical and household characteristics. Some of the results from this year's survey are: expenditure on food and drink eaten out was up 5.2% on 1998 and represents 30% of the combined total of home and eating out expenditure; consumption of fats fell by 5% in 1999; household consumption of fruit was up 17% compared with ten years ago; energy intakes continue to decline from 1740 kcal per person per day in 1998 to 1690 kcal in 1999.
