Mineral Report ,1998 The Gospel of Z Stephen Graham Jones,2025-06-24 In the postapocalypse you take what you can get A must read story and essential addition to the zombie canon from the New York Times bestselling author LitReactor It s been nearly a decade since Z Day when a plague turned humans into the voracious undead Once a high school biology teacher Jory Gray now works on an assembly line making genetically modified handlers the only beings who can control the zombies There s not much to live for these days so when the woman he loves leaves him for the promise of the Church of Z Gray has nothing left to lose Or so he thinks When Gray gets demoted from his factory position he becomes truly expendable and is sent out to blow torch the infected A dead end job if there ever was one As Gray struggles to stay human in a world that wants to make him a monster the military and church duke it out for the future of humanity using survivors as pawns in a hell on earth where zombies are the least of the creatures to be feared Gripping moments of horror are expertly rendered flashes of spot on hilarity provide depth as well as levity and the flickering humanity of the characters will resonate powerfully with readers Publishers Weekly Not simply another zombie novel It is in fact a narrative about things broken society authority community individuality institutions lives even hope And at the end there is the overwhelming sense that at the deepest levels something has been fixed Hellnotes The single greatest zombie book you re ever going to read in your life Baby Black Widows

HTML Professional Projects John Gosney,2004 No other book on HTML offers a project based approach for higher end users This project oriented approach gives readers hands on exercises that they can apply in the real world
