Cold Calling S For All:

Red-hot Cold Call Selling Paul S. Goldner, 1995 Drawing on the author's vast enthusiasm and insights acquired over a successful career this book outlines valuable strategies and techniques for developing a complete selling system that works Readers will learn what sales prospecting really is and why it's a key element in any winning sales formula The Cold Calling Equation Michael Halper, 2012-05-25 Cold calling is a blood sport Sales professionals hate making cold calls and customers despise receiving them Yet those who can rise above the competition and master cold calling will find themselves closing deals hitting targets and positively improving their lives on both professional and personal levels Powerful practical and logical The Cold Calling Equation Problem Solved teaches cold calling as a skill that anyone who exerts the effort can perfect Readers can see immediate results from tactics that are spelled out in the book's first pages It takes the intimidation out of calling a complete stranger and teaches a person with any level of education and experience how to make human connections and find opportunities to grow their business Upending conventional wisdom the author reveals that hard work and effort don't always result in successful cold calls What works is when a caller learns how to succinctly state their company's value to another business Forget selling the features Cold callers need to show how their product will make a client's company run faster smoother and harder The reader can formulate their own attack using the concepts and tools that are cleanly explained throughout the book The Cold Calling Equation Problem Solved is a book based on real world scenarios and developed by Michael Halper who has thirteen years experience in cold calling An energetic sales coach he runs a telesales operation for other businesses and manages a team of callers The book takes the reader chapter by chapter through the other stumbling blocks of cold calling and shows the salesperson how to clear these hurdles He also demonstrates how to build target lists and scripts deal with objections find opportunities build both rapport and interest and more The psychological state of the cold caller is taken into account as well The book gives solid strategies for overcoming anxiety and breaks down the pernicious myth that all cold callers are born rather than made Salespeople don't have to be extroverts or the life of the party In fact it's the ability to listen rather than the gift of gab that makes someone successful at business to business selling Turning the tables on the seller The Cold Calling Equation Problem Solved also demonstrates that not every lead is worth pursuing In a powerful section on qualifying Halper shows the salesperson how to quickly screen prospects through incisive questions It's a tactic that makes the phone call more controversial and gets the prospect talking Cold callers will also learn how to manage gatekeepers turning their enemies into allies who go from blocking to opening up and pointing in the right direction This helpful guide shows callers how to navigate objections those challenging phrases that prospects use to get off the phone Whether it is I do not have time right now or We are not interested Halper will show you why prospects use objections and how cold callers can get around them Even a reader with zero sales skills and no practical experience can read this book and learn how to utilize their phone and make it into a powerful sales tool It will move the

novice cold caller from frustration and failure to control and success

The Complete Idiot's Guide to Cold Calling

Keith Rosen MCC,2004-08-03 Does this sound familiar If I could get in front of the prospect the rest of the selling process becomes easier It s just getting in front of them that s the challenge The fact is most cold calling efforts are doomed from the start Salespeople lose sales not due to a lack of effort but because they lack a prospecting system they are comfortable with and can trust to generate greater consistent results If you are prospecting the same way you have been for the last several years including the calling to check in touch base or follow up approach or haven t been prospecting at all you re simply making it easier for your competition to take away the new business you are working so hard to earn So if you love to sell but hate or don t like to prospect this book is your opportunity to maximize your cold calling potential and boost your income by learning how to get in front of the right prospects in less time and create greater selling opportunities without the fear pressure or anxiety associated with cold calling This Complete Idiot s Guide will show you how to Utilize the seven steps to a permission based cold calling conversation so that you don t have to push your presentation and hope there s a fit Create winning voice mail messages that will ensure more return calls Develop your MVP Most Valuable Proposition that separates you from your competition Craft the Compelling Reasons that would motivate a prospect to speak with you Prevent and defuse initial objections such as I m not interested We don t have any money now or Call me back later Design your own step by step prospecting and follow up system that runs on autopilot and is aligned with your selling philosophy strengths objectives and natural talents rather than taking the generic one size fits all approach Develop the right questions and uncover new selling opportunities in seconds so that you can stop wasting precious time on the wrong prospects
